Turkey

(From page 9)

Many five-roaster birds weighing from three to eight pounds can be fried or boiled. You can stuff and roast them, too.

The new packaging gives the family that just wants dark meat a chance to have it. Or you can have the quality breast which means excellent slicing. Turkey rolls, loaves are other new products that are handy for slicing and serving either cold or hot.

Ready to Go!
Peppy OLIVER
3-4 Plow 770

All new and all set to go, ready to turn out more work in a day and to make it easier for you.

First of all, there's more horsepower in this new 770, coming from a deeper-breathing, higher-speed engine. Add the new Power-Booster Drive and you get 12 forward speeds, almost one-third more pull for heavy going at the touch of a lever—on the go.

Hook a new 4-bottom semi-mounted No. 5440 plow to Oliver's new Power-Traction Hitch and forget about the tough spots. Your 770 just bears down, steps right through at full speed. Put on Powerjuster wheels, let the engine change tread. And make driving a pleasure with power steering.

This is only the beginning. There's a lot more to see in the new 770. You'll want to feel this snappy power, too—in all the exciting new ways.

TURKEY BREASTS

Turkey breasts are a modern day innovation. The full meaty breast can be easily handled, particularly by the young homemakers who may have chafed away from stuffing and trussing a larger bird or by those who don't want a whole turkey for a small family dinner. Turkey breast answers so nicely for those who prefer the white meat.

BUTTER BASTED TURKEY BREAST

1 10-12 pound turkey breast
1 cup (2 sticks) butter

Wash and drain turkey breast; pat dry with paper toweling. Soften 1/2 cup (1 stick) butter, spread over entire breast covering well, place on rack in shallow pan skin side up. Melt remaining butter for basting. Roast (in a preheated 325 degree oven), brushing occasionally with melted butter and drippings. Roast 6 to 8 pound breast 3 1/2-4 hours, 8 to 12 pound breast 4 1/2 hours. Turkey is done when meat feels very soft when pressed with protected fingers or when an internal temperature of 185 degrees is reached.

feed for better profits

Red Rose® Poultry Feeds

A poultry feed must prove its profit making ability in terms of meat and eggs and their dollar and cents value. It must be good enough to develop a chicken's full egg laying potential—and good enough to meet the nutritional requirements of layers under the strain of heavy laying.

RED ROSE POULTRY FEEDS are that kind of feed. They are outstanding in effective quality and contain all essential nutrients, minerals and antibiotics in properly balanced amounts—and produce the results you want at a profit, with greater efficiency. Start now to feed the Red Rose way!
