

## Tomato Seeds Travel Overseas

Harrisburg — The people of Ceylon, India and South Africa will be eating tomatoes grown from Pennsylvania certified seed.

The State Bureau of Plant Industry reports that 747 pounds of certified tomato seed were exported to these countries in 1961.

For export to be made, a special notice of declaration must be filed with plant quarantine officials of the country of destination stating that plants producing the seed were officially inspected and found to be free from bacterial canker.

A pound of certified seed breaks down to 11,482 seeds per ounce, or 183,172 seeds per pound. If the recommended ratio practiced in Pennsylvania is applied, the 740 pound export shipment will plant better than 30,000 acres.

their eager owners to claim their prizes. Earlier five Shorthorn calves had been distributed to club members requesting that breed.

The calves had been purchased by a committee of club leaders and personnel from the county extension service and stabled at the New Holland Sales Barn until the drawing. The cost of all calves was averaged out and club members were charged a uniform price per pound for the animal falling to them in the drawing.

The steer calves will go on feed and will be sold at the club roundup next November or at the 1963 Pennsylvania Farm Show.

## Introducing

# TEN MEN and THE COWculator

TEN Farm Bureau Feed Servicemen, each one carefully trained in the accurate use of the Caskey COWculator, are ready to assist you in realizing the goal of every dairyman - - to feed each cow in your herd for Maximum Profit!

Pictured left to right, Arthur Shenenberger, Charles McCrabb, Eugene Rineer, Harold Geib, John E. Wolgemuth, Assistant General Manager & Sales Manager; Melvin Koser, Harold Kinsey, Allen Mackey and Victor Denlinger. Absent when the photo was taken, John McCormick, Feed Sales Supervisor, Penna. Farm Bureau Co-op Ass'n.

## SEVEN REASONS why more and more leading Lancaster County Dairymen are switching to the FARM BUREAU Dairy Feeding Program!

1. **MAXIMUM PROFIT FEEDING** helps you obtain the greatest possible income over feed cost. It incorporates the use of a revolutionary electronic brain called the Caskey COWculator.
2. **INTRODUCTION**, of the now famous, DARI-PAK Dairy Ration. This completely balanced, fully fortified and economical dairy feed is available in tasty coarse texture or pellets. Choose from 14% or 16%. It's an outstanding milk maker.
3. **DARI-PAK PELLETS** are firm - - palatable, too. Minimum amount of fines assures complete clean-up.
4. **GRAIN EXCHANGE PROGRAM** gives you full retail price for your home grown grain. This program, designed with you in mind, makes it possible to change from custom grinding-mixing to a completely balanced ration without losing the advantage of your own grain.
5. **LARGE-USER PROGRAM** means increased benefits to dairymen equipped to handle 5, 7 or 8 ton deliveries. Means lower production costs - - higher profits.
6. **STEPPED-UP SERVICE PROGRAM** is geared to meet today's increased needs. Carefully trained Fieldmen are available to assist you in planning a profitable feeding program.
7. **COOPERATIVE SAVINGS** are shared by users in relation to purchases. It's your business - - your profits, too.

Take time to discuss "Maximum Profit Feeding" with your FARM BUREAU FIELDMEN - you'll Be Glad You Did.
