Prices Highest Since March

Broiler prices in Delmarva averaged about a cent higher during the 24 hour period ending 10:30 Friday morning. Prices of 16 to 17.50 on 809,000 head at farms during the period were reported, this the highest level since March 28.

Settlement of the butcher's strike in Philadelphia was considered to be a major factor in the increased prices.

Demand was improved and supplies were moderate to light as eastern shore processors estimated slaughter for the week end at 774,000 head compared with the 851,000 head during last weekend. Many processing plants did not plan to operate during Saturday.

Prices in Georgia ranged from 15 to 15.25 delivered to plant during the period.

Estimated slaughter for the week end was 1,499,000 head compared to the 1,595,000 head last week end.
