

## Co. 4-H Council Presents Play.

The 4-H club members of Lancaster County will stage their annual play of February 16 and 17 at 8 p.m. in the Manheim Central High School auditorium.

Special awards are being presented to the National, State and County Home Economics winners on Friday night and Agricultural winners on Saturday night.

The action-packed 3-Act Comedy, based on the hilarious novel of "The Many Loves of Dobie Gillis," will be directed by Mr. Robert J. Hartman, director of dramatics and English teacher at Solanco High School.

The leading roles will be played by David Lapp of Bareville R1 in the shoes of the pint-sized, energetic, and ingenious Dobie Gillis who

he tries to help his school newspaper and yet evade runs into many problems as

LAPP ESHLEMAN

Bonnie, an attractive little package who would do anything to win Dobie's love and attention. She is played by Sue Eshleman of Mount Joy R1. Petey, who is the "wheel" of Dobie's school will be played by Robert Hoover, Ephrata R1, and Joyce Kreider, Quarryville R1, will play Helen who is going steady with Petey while Dobie unreservedly

Frey, Pat Yuninger, Nancy Rohrer, Cynthia Bucher, pursues her.

The cast will be completed by the following members: Barbara Gamble, Wilbur Hosler, Judy Denlinger, Janet

-HOOVER KREIDER

Judy Warfel, Bonnie Miller, Paul Trimble, Elvin Hess, Mary Jane Herr, Judy Longenecker, Ellen Overgaard, Wilmer Wenger, David Denlinger, Chip Warfel, Marilyn Wenger, Maria Frey, Donald Trimble, Steve Martin, Esther Overgaard, Linda Denlinger, Virginia Wivell and Joyce Denlinger.

## Gas Turbine Powered Tractor

International Harvester Company's experimental tractor has a gas turbine engine paired with a hydrostatic transmission. Skin, or body, sections are molded fiberglass.

CHICAGO — International Harvester Company has developed an experimental tractor in which a gas turbine engine is paired with a hydrostatic transmission. The body or skin is made of fiberglass.

The tractor, named the HT-340, has no gear shift lever, no throttle, and no brake or clutch pedals. It uses neither cooling water nor anti-freeze, and has no transmission gears.

The hydrostatic transmission depends upon oil at high pressure to transmit power by

acting on the pistons of a radial hydraulic motor installed in each driving wheel.

The 80-horsepower gas turbine engine, a product of Solar Aircraft Company, Harvester's San Diego subsidiary, is 21 inches long, 13 inches in diameter and weighs only 90 pounds with reduction gearing.

At present, the HT-340 uses only about half of the turbine's rated horsepower since the transmission was designed to operate with a 40-horsepower piston engine.

## K-137 KimberCHIKS...

**10¢ to 34¢ MORE NET INCOME THAN OTHER MAJOR EGG STRAINS\***  
(35¢ more than average entry in 15 tests)

\*Based on final reports in 1959-60 Random Sample Tests in Ariz., B.C., Calif., Fla., Ia., Minn., Mo., C.N.Y., W.N.Y., N.C., Pa., Tenn., Tex., Utah, and Wisc.

In the three 1959-60 tests in which the new K-155 Kimberchik was entered, it equalled the well-known K-137 in net income.

**Get the BIG silo unloader value!**

## VanDale

Delivers more silage faster!

Patented 3-point suspension keeps unloader level at all times and centered for more efficient operation

● Double auger system digs the silage faster and more evenly under all conditions whether silage is frozen, wet, or dry.

● Exclusive, adjustable drive hub gives more positive traction, keeps the machine operating evenly, and requires less power.

### DELIVERS BETTER SILAGE TOO!

The double augers, operating in conjunction with the patented V-paddle impellers, dig the silage, mixes it thoroughly, and then throws it down the chute. Your cows and cattle get good, palatable silage... not a powdered mash as so often happens with unloaders using blowers.

### TWO SIZES:

Standard—for silos 10' to 18'  
Heavy Duty—for silos 12' to 30'
