county. The host chapter, Solanco placed third.

Members of the winning team were Kenneth Denlinger, Lancaster R7, Paul Weik, Strasburg R1, Kenneth Meek, Willow Street R1, James Shertzer, Lancaster R7, James Houser, Lampeter, Melvin Breuneman, Strasburg R1, Earl Livingood, Lancaster R7, and Donald Kirbybill, 599 Lampeter Road, Lancaster R7.

Grass Field Day At Hershey

Hershey, Pa. - Farm machinery worth an estimated \$1 million will be in use or on display at the First National Grassland Field Days and Conference next Aug. 15-17 on the Milton S. Hershey Farms, 15 miles east of Harrisburg, according to Burton S. Horne, chairman of the

test. Houck was second last year.

Lancaster County representatives shut out their York competition as Jay Rinck of Solanco, Dale Hostetter of Pequea Valley and Kenneth Meek, Garden Spot FFA took the third, fourth and fifth places respectively.

It was the second time in a week and the third straight outing that Lancaster County took all top prizes from York County Future Farmers. On Tuesday the Lancaster County boys won the area Parliamentary Procedure and Public Speaking contests and last week they swept all top spots in the inter-county Land Use and Management contest.

● **Quality Hay**

(From Page 1)
discuss hay making trends, methods and modern practices. County Agent Max M. Smith will discuss storage varieties, fertilizers and other varieties. The first of the two meetings will begin at 9:30 a.m. on the farm of Clarence Keener, Manheim R3. Keener has a heat drying unit and four wagons.

At 1:30 p.m. on the farm of James G. Kreider, Quarryville R1, a natural air drying system with ducts in the mow will be demonstrated.

Both meetings are set for Thursday, April 19 and are being sponsored by the county extension service.

field machinery demonstration committee.

Horne, extension agricultural engineer at Penn. State University, said the machines will include tillage tools for making seedlings, also mowers, conditioners, rakes, choppers, balers, and drying equipment.

Moldboard plows, still the most important tillage tool in the nation's agriculture will be used in the annual State Plowing Contest, on Aug. 17. More than a dozen county champions, yet to be named, will compete for the state

championships now held by Osborne, Cornwall Farm, R1, Charles D. Wessner, Kutztown R2, in level land, and Myron A. Young, Chambersburg, R3, contour.

Field equipment will be in operation all three days. Educational conferences will overlap the field events the first two mornings.

Jersey Sire Makes Record

A registered Jersey bull, Jolly Duke, owned by Jesse G.

Osborne, Cornwall Farm, R1, Peach Bottom, Pa., is announced by The American Jersey Cattle Club as having qualified as a Tested Sire.

His first 14 tested daughters produced an average of 9,481 lbs. milk containing 522 lbs. butterfat on a twice-daily milking, 305-day mature equivalent basis. 17 of his daughters have been officially classified for type with an average score of 83.09%.

KENNETH MARTIN

Judges for the Parliamentary Procedure contest in which the teams demonstrated their ability to conduct a meeting according to the rules of parliamentary order were Richard Lishter, Vocational Agriculture supervisor in the Adams-Franklin area, Lloyd Lebo, Vocational Agriculture supervisor in the Lebanon-Berks area, and Jack Owen, editor of Lancaster Farming.

The winners of both divisions of the contest will advance to the Southeastern Pennsylvania Region contest to be held May 3 in the auditorium at the Millersville State College.

The contest was arranged by T. M. Mahn, area FFA advisor for York and Lancaster Counties.

Market Egg Producers! Get Off to the Right Start!

Remember the saying,

"The Way the Twig is Bent!"...

Well, that applies to your pullets raised for replacements in the laying house. Next winter's egg production costs and your flocks performance will be determined by the way you feed and manage your replacements right now. A cheaply built feed or a poor program will NOT save you money. Only top production, low feed conversion and low production costs per dozen eggs will pay off.

Quite a number of our customers are getting unusually HIGH production this Winter with resultant LOW conversions and VERY LOW feed costs per dozen.

Needless to say they raised their replacements "by the book".

No Matter Whose Chick Starter You Use Please Bear In Mind

GOOD MANAGEMENT IS AN ESSENTIAL INGREDIENT
