

SALE REGISTER

Saturday, April 28, 1962
12:30 P.M. — Public Sale of 120 New and Used Power Lawn Mowers and Chain Saws on the premises located 3 miles Southwest of Lancaster in the Village of New Duville by the Mast Company Henry Strimer, Auct.

Sat. Apr. 28 — 1 p.m. — Sale of household goods, pictures and light farm equipment by Samuel D. Kinsey, along Rt. 222 at Hessdale 10 mi. S. of Lancaster Kleider and Diller, Aucts.

Sat., Apr. 28 - 9 a.m. — Sale of 8 farms, 960 acres ranging 60 to 275 acres Real Estate at 10 a.m. - 125 registered and grade Guernseys full line of equipment by Carter Bache, owner of Maywood Farms in Columbia County 15 Mi. N. of Bloomsburg 3 Mi. SE of Benton 2 Mi. E. of Stillwater Singer, Auct.

Sat., May 12 - 4 miles west of Manheim Public Sale of household goods and also at the same time and place the Farm Equipment held over from our April 7 Sale. Contact us early we sell on commission C. H. WOLGEMUTH Rt. 2 Manheim Pa.

Sat., May 19 Household goods for Menno Ober located 3 miles north of Manheim along Rt. 72 Near Elstonville C. H. Wolgemuth, auc.

Sat. June 2 - 1 p.m. — Real Estate Farm implements and household goods Gilbert, Auct.

Sterile Insects Cut Population In Experiments

U.S. Department of Agriculture scientists have developed certain chemicals that will prevent insect reproduction. Dr. Dale F. Bray, University of Delaware entomologist, reports these chemicals induce sterility in houseflies, mosquitoes, stable flies and other bothersome insects.

By treating insects in laboratory-reared test colonies with small quantities of sterilizing chemicals, the scientists were able to halt normal reproduction.

In a preliminary field test USDA entomologists nearly wiped out the population of houseflies on a small uninhabited island off the Florida coast.

● Chicago

(Continued from Page 2) commercial bulls 18.50-21.00, good 15.00-20.00 lbs., 14.50-16.00 good and choice vealers 26.00-31.00, standard 21.00-25.00.

Mostly choice 800-875 lb. feeding steers 24.75-26.25, 96 head strong choice 1055 lbs., 25.50, and load choice partly finished fleshy 1054 lbs., 26.50, good and choice 800-900 lb. feeder steers 24.00-24.90, medium and good 911 and 960 lb. feeding steers 21.50 and 22.90.

Resline Estate at Wrightsville Rt. 1 near Craley 11 acre farm horse drawn equipment and household goods Gilbert, Auct.

A bait containing a chemical sterilant was applied once a week for five weeks on a heavily infested refuse dump. At the end of the fifth week only a few flies could be found and 99 percent of those captured were sterile.

Dr. Bray feels that chemical sterilization may be a very effective way to control large insect infestations. Also chemical sterilants could be applied to large areas more economically than present control methods.

Of the 2,000 chemicals tested, entomologists found more than 70 that affected insect reproduction. Most promising of these are a half dozen derivatives of ethylenimine. These chemicals are being used under carefully controlled conditions because their effects on animals, plants and beneficial insects have not been fully determined.

The use of chemical sterilant on insects was discovered more than a year ago. Since then, more intensive studies have been conducted.

Kill Weeds, Insects with Broadcast or Row Crop Granular Chemical Applicators

Switch to granular chemicals! Completely pre-mixed, no water to haul. Farmer-proved Noble row crop applicators fit most all planters, listers, seeders (2, 3, 4, 6-row). Let you kill weeds, insects while planting. Shown is Noble Simul-Caster, spreads both insecticides and herbicides with one pass over the row. Divided hopper holds 16 lbs. insecticide, 32 lbs. herbicide. Application rate from 8 oz. per acre to 50 lbs. To apply only one granular chemical at a time, Noble Single-Unit Applicator is economical buy, applies insecticide or herbicide.

Newest broadcast applicator is Noble Chemi-Caster. Applies either granular insecticides or herbicides with unheard-of precision and uniformity. Model 7 handles 7 ft., Model 14, 14 ft. Rate is from 2 lbs. per acre to 50 lbs. Mounted on tractor's three-point drawbar, finger-tip control lowers applicators for close ground coverage when used over pre-emergence of crops, or raises to clear tops of post-emergence of crops. Tractor PTO-driven allows full maneuverability.

ROW CROP
Two chemicals at once

Noble

GRANULAR APPLICATORS Boost Yields of Corn, Soybeans, Vegetable Crops

NOBLE APPLICATORS 4 YEARS IN THE FIELD

- Powr-Feed spreads chemicals evenly, on level ground, hillsides
- Micro-Tight Shut-Off prevents leaking, waste... even when refilling hoppers.
- Perfect-Pattern Spreader hugs ground, prevents drift. Assures exact placement of granules. Bands 7" or 14" pattern from one tube
- Multi-Mount, heavy-duty universal mounting brackets, stabilizer braces fit most planters, listers, seeders. Rigid, can't work loose.
