

### Mail Boxes Have Their Day

The Post Office Department announced that the week of May 21-26 has been designated MAILBOX IMPROVEMENT WEEK. All patrons are urged to participate by furnishing mail receptacles which are convenient and safe to use, neat appearing and protect the mail. Boxes that are properly erected and maintained contribute to efficient, speedy delivery of the mail and also reflect credit to the community.

Rural route patrons are required to provide mail boxes of the standard approved type. Names of the owners should be shown on the side of the box visible to the carrier as he approaches or on the door if boxes are grouped. The box number may be shown on the

box. Boxes and supports should be kept painted. It is desired that patrons group boxes where practicable, particularly where adequate turnouts can be provided.

The Post Office advises that boxes not properly installed or not kept in good serviceable condition retard the delivery of mail and may expose it to the weather. Mail boxes on the rural routes must be located on the right side of the road in the direction of travel of the carriers wherever traffic conditions are such that it would be dangerous for the carriers to drive to the left in order to serve the boxes or where their doing so would violate State laws.
