

**● President Calls**

(Continued from Page 1)

In expressing hope that congress would accept the proposed bill, "in spite of conflicting interest", President Kennedy said it is important to all our interest to have supply and demand in balance.

He complimented American farmers for their productive ability as compared to the productive ability of farmers in other parts of the world but he viewed with alarm the rise in the budget of the Department of Agriculture.

"We are proud of the record of our farmers, but we have seen the federal budget for agriculture go up from \$2 1/2 billion in 1954 to \$6 billion last year."

The president also expressed hope that congress would look favorably on the foreign trade bill now under consideration.

"It is important to our common interests abroad to maintain a favorable balance of trade", he said.

**HATCHERY  
Breeding Farm**

**AN INVESTMENT FOR  
LARGE PROFIT**

In Agriculture, as in other business, a good way to increase assets and income is buying a related farm business with "ready-made" customers and a long history of high percentage profits.

Tax records show this hatchery - farm enterprise had average profits the past seven years of \$17,061 (before depreciation) and in 1961, a profit of \$19,449.

Owner has reinvested \$5,000 to \$20,000 each year. Without heavy plowback each year, a good manager can net \$20,000 or more.

This is the time to buy . . . when, due to sudden illness, owner will sacrifice asset and earning values, built up over 23 years.

This southeastern Pennsylvania farm business, with 50 tillable acres, is in a low-cost area, ideally arranged for profit. DATA SHEET tells why. Trained help lives on premises. Near main highway. Customer-prospect list 4,000 names, carefully catalogued. Present staff is willing to stay.

P. O. Box 1324, Lancaster, Pa.

We sell \$1 9 billion worth of goods in the foreign market, and all farmers are tied up with this trade.

If we pass the trade bill,

we will protect the interests of the farmer in the market " he said.

When pressed to comment on the probability that congress would pass the farm bill the President said it is hard to get a clear cut majority on

anything.

Sometimes it is difficult to get a "majority of one", he said.

The administration's farm bill was voted out of the House Agriculture committee

late last week by a vote of 13 to 17, but it has not yet come to the floor of the House. The Senate version was voted out of committee in April, but has not yet come before the full body.

**"TA and Traction Control gets me through  
the toughest spots with my Farmall 560,"**

Says . . .

**Carl B. Herr**  
Lancaster

"Being that I am in wheel track farming," Mr. Herr explains, "it requires power to get the job done in a hurry, as I wait to the last minute to plow and plant I like the big smooth 6 cylinder power plus Torque Amplifier. You just pull the TA lever to zip right through your toughest spots without stopping or shifting. I traded in a smaller tractor for my 560 . . . and found that I could do 1/3 more work for 1/3 less fuel, than with the smaller tractor."

**New power . . . new economy . . . for YOU**

You pick the time, the field, and the job . . . and we'll let you prove to yourself how the International 560 gets more work done on less fuel. Check the smooth 6-cylinder power that's yours in gasoline or Diesel. Try out the famous

IH Torque-Amplifier that boosts pull-power 45% on-the-go, without shifting. Test all the 560's farm-easy features . . . independent PTO. "live" Hydra-Touch hydraulics, power steering, and many more.
