potato pests can't hide from Phosphamidon

You've probably read about the insect-seeking Killer-ORTHO Phosphamidon. We have it. We've seen it work. We recommend it for eliminating potato pests. Here's why.

Wherever insects hide safe from other sprays (under the curl of a leaf, in crevice of a stalk) Phosphamidon hunts them down. And kills them. Phosphamidon kills on contact. But, it doesn't have to. It is absorbed by the foliage and penetrates the entire upper part of the plant system. Result: a "remote control" kill that gets the hidden insects other sprays miss.

The list of insects reads like an encyclopedia of potato pests: Colorado potato beetle (even the resistant one), all varieties of aphids, flea beetles, corn borers, leaf hoppers — just about every insect that chews or sucks. What's more, most insects that are resistant to other sprays find Phosphamidon irresistible.

Phosphamidon is absorbed so quickly that workers can enter the fields a few hours after spraying. And the natural predators that feed on harmful potato insects can safely return too.

Don't spray money away, hit or miss, with ordinary sprays — come in or phone us for your Phosphamidon requirements. With Phosphamidon you just can't miss

city director of the group last year. He is currently president of the county 4-H Baby Beet Club.

The 15 year-old president-elect of the Home Economics section is a four year member in the Garden Spot sewing club, and has been the club's council representative for the past three years. She served her local club as president in 1960, and as secretary in 1961.

This year Miss Schreiber will represent the county at the state 4-H Club Congress at the Pennsylvania State University. The project she is start-

ing a present is a wool dress. Zartman Ephrata R1.

Other officers elected by the agriculture council were, vice president, David Denlinger, 2351 Horseshoe Road, Lancaster; secretary, Joyce Kreider, Quarryville R1, treasurer, Donald Trimble, Quarryville R1, parliamentarian, Robert L. Hoover, Denver R2, and publicity director, Wilmer Wenger, 76 Greenfield Road, Lancaster.

The following four members at large were elected to the Agriculture executive board: Janet Frey, Marietta R1; Roy Mentzer, New Holland R2; Richard Lehman, 2551 Creek Hill Road, Lancaster, and Pat Manheim R2.

At large members from the Home Economics club were Pat Long, 1772 Oregon Pike, Lancaster; Marcia Hess, Manheim R4; Sue Brown, Nottingham R2, and Marcilla White, Ephrata.
