

Have You Heard?
(continued from page 15)
cup of milk.
American consumers spent ten and four-tenths billion dollars for dairy products last year. This is an average of fifty dollars for each person in the United States.
Retail prices of half-gallons of ice cream have dropped during the last ten years.
Today, sixty per cent of the

cheese produced in the United States is Cheddar.

Family Vegetable Garden Hints

Besides cabbage, other common members of the family include broccoli, cauliflower and Brussel sprouts. Radishes, kale, turnips, kohlrabi, Chinese cabbage, and mustard are also members of the same botanical family.

This And That

For a quick and easy ice cream topping, melt a half lb. of vanilla caramels over boiling water. White melting, stir in two teaspoons of instant coffee.

A well-flavored cream sauce is basic in all good cooking. Its creamy texture and blend flavor makes it an ideal base for many dishes. Being one of the major ingredients in a

cream sauce, milk contributes its high quality and essential nutrients.

For a different but easy dessert, sprinkle the centers of drained canned peaches with toasted coconut, then spoon thawed frozen raspberries or strawberries over the top.

If you and your family ate your share of pineapple last year; whether the fruit was fresh, canned, or frozen; you used about twelve pounds each on a fresh basis.

Noodles are made from the same basic ingredients as macaroni and spaghetti. In addition, the law requires noodle products to contain a minimum of five and a half per cent of egg solids.

To make an interesting or unusual piece of furniture an attention getter, try this place it against a light background if the piece is dark. If it is light, a dark background will accent it.

Check your work habits if you suffer from fatigue and occasional backaches. Stop for short rest periods during the day and change your pace. If you're sewing or sitting to do other work, do something active for relaxation.

Conestoga 4-H Sewing Club Meets Weekly

The Conestoga Valley 4-H Sewing Club met recently at the high school.

First year girls sewed their seams and put in their gathering stitches. Second year girls finished pinning their patterns to their material and sewed some of their pieces together.

The club meets each Tuesday in the Conestoga Valley High School Home Economics room.

Farm Women 22 Are Shown Film On Communism

A film on Communism was viewed by members of Farm Women's Society 22 at a recent meeting in the home of Mrs. Charles Fisher, Strasburg R1. Mr. Harold Schreiber of New Holland Machine Company presented the film.

The society planned a family style picnic at the Lampeter Community Grounds on July 1, at noon.

A donation of \$15 was voted to the Lancaster County Agriculture Center Fund, and \$5 to the fund for the migrant workers' minister. A bake sale will be held at Sears Roebuck and Co. sometime in the future.

Mrs. Cloyd Wenger was co-hostess. Mrs. Fisher led devotions.

K-137 KimberCHIKS...

10¢ to 34¢ MORE NET INCOME THAN OTHER MAJOR EGG STRAINS*
(35¢ more than average entry in 15 tests)

*Based on final reports in 1959-60 Random Sample Tests in Ariz., B.C., Calif., Fla., Ia., Minn., Mo., C.N.Y., W.N.Y., N.C., Pa., Tenn., Tex., Utah, and Wisc.

In the three 1959-60 tests in which the new K-155 Kimberchik was entered, it equalled the well-known K-137 in net income.

BALE TWICE AS FAST WITH HALF THE LABOR!

Today there's a new way to bale—that lets one man bale and load faster than a 2- or 3-man team! The new system consists of a New Holland Hayliner plus a simple, foolproof mechanism that "airlifts" the bales into a trailing wagon.

It costs surprisingly little. In fact, the lowest priced Hayliner—the new Compact Hayliner 65 with Tele-Flow feed—costs no more with Bale-Thrower than many balers without automatic wagon loading! You get the job done in half the time—all by yourself! See us about a demonstration today.

June is DAIRY MONTH

NEW . . .

For DAIRY MONTH

NEW

GROUND CONTROLLED SILAGE DISTRIBUTOR

fills your silo evenly... safely...with less labor!

No more climbing the silo to hand-level silage . . . no more hazardous work over an empty silo or in dangerous silage gases. The new Badger-Thompson Silage Distributor takes over at silo filling while you stay safely on the ground . . . helps you pack in more tons, uniformly and evenly, to produce consistently good quality feed.

There's no hard-packed off-center or leaning core to put uneven pressure on silo walls . . . no loose-packed areas that spoil. Silo unloaders work better, too.

Adjusts to any silo size . . . 10 to 30 foot. Fits any make blower . . . 7 to 9-inch pipe.

HERE'S HOW IT WORKS

This distributor mounts on any forage blower . . . all adjustments are made at ground level. It oscillates the blower pipe while the hood directs the material in a circular pattern.
