

## Local Swine Breeder To Judge Hogs At Pa. Livestock Show

A well known Lancaster named to pick the winners in County Swine breeder will be the sixth annual Pennsylvania one of the 16 judges from 10 Livestock Exposition. states who were recently Arlie Anderson, Masonic

Home Farms, Elizabethtown, will be one of the swine judges at the November 5 - 9 show in the Farm Show Building, Harrisburg.

Other swine judges at the show which will award money prizes of \$80,000 will be Arthur Jordan, Ohio State University, Columbus, Ohio; Harlan Ritchie, Michigan State University, E Lansing, Michigan, and Charles Barnhart, University of Kentucky, Lexington, Kentucky.

Lancaster Farming, Saturday, September 8, 1962—5

Carcass classes Robert W. Bray, University of Wisconsin, Madison, Wisconsin.

Six of the experts will judge the beef cattle. They are James P. Keen, Moles Hill Farm, Milledale, N. Y.; W. A. Cowan, University of Connecticut, Storrs, Connecticut; Don L. Good, Kansas State University, Manhattan, Kansas; John Minish, Cho, Iowa; Harold L. Parks, Iowa State University, Ames, Iowa; and Rolland H. Mullinix, Woodbine, Maryland.

Sheep judges are Jack Judy, Ohio State University, Columbus, Ohio; Jack Goater, Baxter, Pennsylvania, and Don E. Bell, Ohio Experiment Station, Wooster, Ohio.

Offering the best array of livestock under one roof in the East, the show will present top quality animals from outstanding breeders in the United States and Canada, according to Dr. William L. Henning, Pennsylvania secretary of agriculture and chairman of the sponsoring Pennsylvania Farm Show Commission.

Included will be market steers, barrows and wethers with carcass classes in each category. Among the steer exhibits will be animals bred for market by FFA and 4-H Club youths as their educational projects in animal husbandry. Two hundred and fifty 4-H youths will put on a horse show as part of the evening entertainment. Other evening features will include indoor polo matches, livestock parades and calf scrambles.

Howard H. White, Allentown, Pennsylvania, is general chairman of the exposition. Ben Morgan, is general superintendent, and Tom King, as-

## Even Intervals No Advantage In Milking

Recent experiments at the University of Minnesota with two groups of twin dairy animals show that it makes little difference whether cows are milked every 12 hours or on an 8-16 hour interval.

All factors considered, the Minnesota researchers found that cows milked every 12 hours produced only about 1.2 per cent more milk and 0.8 per cent more total fat.

An advantage of the 8-16 hour interval, they say, is that it permits a shorter work day for the dairyman.

## Now Is The Time

(Continued from Page 4)  
acres of sagebrush and tumbleweed presents monotony and a "get-back-home" desire. Towns and villages are quite distant (30 to 50 miles) but depend upon agriculture for their living. Plant life is scarce without irrigation. Cloudless skies and low humidity (10-12 per cent) presents the desert setting and appearance of this open prairie of the Southwest. A skinny jackrabbit every 500 miles reflects the scarcity of wild game in this mountain sagebrush country.

assistant superintendent. Both are extension livestock specialists at the Pennsylvania State University, University Park, Pennsylvania. Co-sponsoring the exposition are the Pennsylvania Department of Agriculture
