Sewing With Laminated Foam Fabrics

Choose a pattern with a minimum of seams, darts, or details.

Pin the pattern pieces to the fabric side.

Use tailor's tacks for making darts and other pattern details.

Baste the entire garment before stitching or make sure the pattern fits properly before cutting. The foam will weaken from ripping out seams and stitching again.

Stitch over tissue paper or use a pressure-sensitive tape over the area of the machine likely to catch in the foam.

Use a fine to medium needle and about ten stitches to the inch.

THURSTON

Hem through the entire fabric because the foam alone won't hold the threads.

Some Basic Safety Rules

Keep scissors, knives, and other pointed or sharp tools in a safe place.

Teach children to play in safe places, keep them off the streets and highways.

Remove the locks from all discarded or unused refrigerators.

Disconnect electric heating appliances when not in use, and keep all electric outlets covered when not in use.

Never wear dangling sleeves when working near the range or other open flame.

Be sure window screens are fastened securely.
