

● **Local Girl**

(Continued from Page 1)
 by girls, all winners from district contests, competed.
 Theresa, 17, made the suit as a project in the Home Economics class at Penn Manor High School.
 Theresa made an attractive rust colored suit fashioned with a straight skirt and cardigan type jacket with three quarter length sleeves. Her blouse of cotton and acetate blend in olive, rust and deep pink was of the same material used in lining the suit. She made a three-band clamp hat of the suit material accented with a bow of the lining ma-

terial. She wore black gloves and shoes during the contest modeling.
 Theresa, a past president of the Penn Manor Future Homemakers club is now an officer in the county Association of FHA. She is active in the Dramatics Club, the Glee Club, and the Future Teachers of America.
 A senior girl scout and assistant troop leader in troop 128 of Pequea, she attended the national Girl Scout Roundup at Button Bay, Vermont last summer. She is a member of the Mount Nebo Methodist Youth Fellowship and assists in the school nur-

sery.
 Theresa, the oldest of seven children, in addition to helping with the younger children at home, is working toward a college education in Home Economics.
 She considers the work with the other children good training for her life's work and often constructs clothes for her sisters' dolls. Sometimes, Theresa says, she tries out styles on the dolls before making the garment for herself.
 The contest was sponsored

Prices Received By Pa. Farmers Continued Above Last October

Prices Received by Pennsylvania farmers for their agricultural products continued above last year during the month ending October 15, according to the Pennsylvania Crop Reporting Service

The Index of Prices Received, which is a measure of the trend and changes of Prices Received by Farmers was 234 percent of the (1910.14=100) Base, compared with 235 a month earlier and 226 a year earlier. An increase in the price of wholesale milk was the main factor in offsetting slight declines in the prices of most other farm products from a month ago, thus holding farm prices relatively steady for that period. The 4 percent increase in farm product prices over a year ago was mainly the result of the combined upswing in value of beef, hay, chicken, potatoes, apples, corn and wheat.

The Index of Prices Received for Livestock and Livestock Products held steady during the month ending October 15. Meat animal prices led by beef cattle and hogs declined. Prices Received for chickens showed a decline, but egg and turkey prices were constant through the month. Balancing these lowered prices for meat animals and chickens was an increase in the price for milk. An advance in beef cattle and chicken prices was the basis for the livestock products index increase of one percent since last year.

The Index of Prices Received for Crops dropped slightly from one month ago, but was 13 percent higher than a year ago. During the month, the main influencing changes were lowered prices received for potatoes, wheat and apples coupled with higher prices for late cut vegetables.

Get the BIG silo unloader value!

VanDale
Delivers more silage faster!

- Double auger system digs the silage faster and more evenly under all conditions whether silage is frozen, wet, or dry.
- Exclusive, adjustable drive hub gives more positive traction, keeps the machine operating evenly, and requires less power.

DELIVERS BETTER SILAGE TOO!

The double augers, operating in conjunction with the patented V-paddle impellers, dig the silage, mixes it thoroughly, and then throws it down the chute. Your cows and cattle get good, palatable silage... not a powdered mash as so often happens with unloaders using blowers.

TWO SIZES:

Standard—for silos 10' to 18'
 Heavy Duty—for silos 12' to 30'
