OLD 907's RECORD STILL STANDS

Thirty-four old cows in the Purina Farm Dairy Center herd have lifetime production records of more than 100,000 lbs. of milk. Cow number 907, pictured at right, had the best record of all. She produced 180,377 lbs. of milk in 11 lactations.

Through the years dairy animals, raised at the Farm the Purina Way from birth grow fast, freshen early and spend long, profitable years in the milking string.

Dairymen who follow the Purina Dairy Program get equally good results.

We urge you to try Purina, prove to yourself that Purina feeding costs you less.

Do You Know . . . Livestock Mineral Is Cheap Insurance?

Purina Livestock Mineral is cheap insurance against mineral deficiencies. For just a few cents per head per year you can be sure livestock get the minerals needed to produce and reproduce efficiently.

Purina Livestock Mineral is now available in two easy-to-use forms — meal or blocks.

The meal form is ideal for free-choice feeding of feedlot cattle, hogs, and sheep. The weather-resistant blocks are handy for use on range or pasture. Don't take chances with livestock health and profits — feed Purina Livestock Mineral . . . available at our Checkerboard store.

Do You Know . . . Sows Produce 100 Gallons Of Milk Each Year

A brood sow is a factory — a "pig factory" — and she needs help to produce to capacity. At the Purina Research Farm on the Purina Hog Program, sows each year produce more than 100 gallons of milk; wean 18 pigs; and maintain their own bodies. These are mighty big jobs.

Purina Sow Chow — fed with your grain — is designed and researched especially for these big jobs. Get Sow Chow at our store with the Checkerboard Sign.
