trained men in all fields in-
 creases. We need trained men
 on the farm as much as in
 any other field, and boy can
 get this training and develop
 interests in the Vocational
 Agriculture program.

There will be very little
 change in our program dur-
 ing the next year because we
 are in a predominantly agri-
 cultural area. In some areas
 that are changing from pre-
 dominantly agricultural to
 suburban, there will have to
 be some changes in the pro-
 gram to meet the changing
 needs.

tions will require larger loans.
 Some of the smaller banks'
 loaning limits make it diffi-
 cult to meet the needs of the
 larger farmers.

As this capital requirement
 increases, the problem of sett-
 ing up a financial program be-
 comes more difficult for small,
 inefficient farms.

The weather of the past
 year has caused low output
 per farm, and this can cause
 some trouble as far as meet-
 ing credit requirements.

As the squeeze on farm
 profits continues, it is imper-
 ative that the farmer manag-
 es his credit on a yearly basis.
 He should consider credit
 as he considers any other en-
 terprise on his farm and ar-
 range for his credit needs as
 far in advance as possible.
 Credit is more difficult to ar-
 range on the spur of the
 moment than when it is
 planned on a yearly basis.

Park Ranck Holstein Herd
Has High Average In DHIA

The 26 registered Holsteins
 in the herd of Paik H Ranck
 had the highest monthly but-
 terfat average in the Red
 Rose Dairy Herd Improve-
 ment Association during the
 month of November.

The monthly newsletter,
 released this week showed
 that the Ranck herd had an
 average of 63 pounds of but-
 terfat in 1,562 pounds of
 milk with a 4.0 per cent test.
 Second in butterfat average

was the 33 registered Hol-
 stein herd of Christian K.
 Lapp, Gap R2. The herd had
 62 pounds of butterfat per
 cow in 1,373 pounds of milk
 with a 4.5 per cent test.

The high 305 day lacta-
 tion record completed in the
 month was produced by a reg-
 istered Holstein cow in the
 herd of Harry S Aungst, Mar-
 zetta R1. Lady produced 833
 pounds of fat, 22,232 pounds
 of milk, and had a 3.7 per
 cent test.

Another registered Hol-
 stein, from the herd at Conoy
 Farms, Bainbridge R1, had
 the second highest lactation
 record completed during the
 month. She made 18,885
 pounds of milk with a 4.3 per
 cent test for 806 pounds of
 butterfat.

Robert C. Groff, Quarry-
 ville R3, had a Holstein cow
 with 800 pounds of butterfat
 in 19,828 pounds of milk with
 a 4.0 per cent test.

Other cows finishing lacta-
 tions with over 750 pounds
 of fat were in the herds of
 J. Mowery Frey, Jr., Robert
 A. Bieneman, Christ K. Lapp
 and Son, Furry Frey, and Ed-
 win J. Landis. Fifteen other
 cows in the association com-
 pleted over 700 pound lacta-
 tion records during the
 month.

Following the Ranck and
 Lapp herds in average pro-
 duction were the herds of
 Paul B. Zimmerman with 60
 pounds per cow, Martin Bom-
 berger with 58 pounds and
 with 57 pounds per cow were
 the herds of Clair K. Griffith
 and Elam P. Bollinger. Eli M.
 Kauffman and A. H. and J. K.
 Risser milked an average of
 56 pounds from their herds,
 and Elam K. Beiler and David
 H. Breckbill each had averag-
 es of 55 pounds of butterfat.
 Thirteen other herds had 50
 or more pounds per cow.

If a new poultry range is
 to be used this spring, move
 and locate all cleaned equip-
 ment during the winter, sug-
 gest Penn State extension
 poultry specialists. If the old
 range is used again, move
 the shelters, clean the areas,
 and return shelters to the
 same places.

122 million units of Mc-
 Guffey Readers were sold be-
 tween 1836 and 1857, making
 it an all-time best seller.
