However, the mortgage on the building was reduced from \$18,250.00 to \$10,000.00 during the year. This came about as the result of a \$12,500 damage payment from the State Highways Department. A total of \$8,250 was applied toward the mortgage.

The loss was the second in as many years, but was \$1,665.30 less than the \$3,686.83 deficit for the 1961 year.

Eight members were elected

**CAMERON
LEGHORNS**

WIN

1961-62 PA. RANDOM SAMPLE TEST

We're glad we won, but it takes a lot of luck to beat out 47 other laying strains in any single test. But IT TAKES GOOD BREEDING to win a three-year high income award. Not just once . . . but twice! Of this we are especially proud.

Cameron Leghorns Are FIRST and ONLY layer chicks ever to earn a second three-year award in the history of the big, highly competitive Pennsylvania Random Test.

They EARN MORE! They COST LESS!

CONSISTENCY PLUS — No wonder some of the finest hatcherymen all across the nation are switching to Cameron-bred layers for their customers. We of the Keener Poultry farm are happy to announce our associate Hatchery with the Cameron Breed Leghorn Layers.

D-15

Around the farm work horse

Here's the tractor with chore-size convenience and economy, yet there's 40 hp when you need it. Extra horsepower and weight in compact size make this the workin'est power on your farm. In the field or around the yard, it's heavy enough to put real punch behind hauling, loading, and feeding jobs. For crop work, the D-15 is ready and able to help as an extra tractor on any big farming operation. Power Director on the D-15, as on D-17 and D-19, provides 8 forward speeds, on-the-go range shifting, and live PTO. With new D-15 power, chore jobs move as never before, and you have a new reserve for field work.
