

Leader's Council Elects Members

Ten members were elected to the executive board of the Lancaster County 4-H Leader's Council at the annual meeting of the group recently at Farm Bureau Cooperative auditorium, Dillerville Road.

"The 4-H Parent and You (the leader)" was the topic for the main talk of the evening delivered by the Reverend Kirk Hudson, pastor of the Highland Presbyterian Church.

The 55 persons at the meeting were entertained by Mr. and Mrs. Aaron Landis who sang several songs.

Those elected to the executive board were as follows:

Agricultural representatives — Mrs. Dorothy Fry, Stevens R1, northeast district; Melvin Long, Lititz R3, northwest district; Wilbur Houser (re-elected), Lampeter, southeast district; Edgar Porter, Wash-

ington Boro R1, southwest (district, and Daniel Trimble (re-elected), Quarryville R1, southern district.

Home economics representatives — Mrs. Heibert Royer (re-elected), 2025 Oregon Pike, northeast district, Mrs. Jean Thomas (re-elected), Manheim, northwest district, Mrs. Raymond Denlinger, Strasburg, southeast district, Mrs. Edgar Porter, Washington Boro R1, southwest district, and Mrs. John Stone, Quarryville R1, southern district.

Remove Non-Layers

Some non-layers may show up in the pullet flock a few months after they start laying, and Carl O. Dossin, extension poultry specialist, says poultrymen must decide whether to sell these birds or keep them with the hope they'll come back into profitable production. If houses are overcrowded, and non-laying birds are few, market those that have stopped laying.

VERNE MARTIN, RETIRED SALES Manager of the Maytag Corporation, Newton, Iowa, was the main speaker at the annual sales meeting and banquet last week of the Rohrerstown feed firm of Miller and Bushong. Martin, left, outlined the sales approach that took the Maytag organization from a dealership of approximately 1,400 to 15,000 during the time he was sales manager. With Martin, at the meeting in the Host Motel, are, left to right; Chester Graybill, president of the firm; Robert Graybill, Vice President and General Manager, and Allen Graybill, Vice President and Treasurer.

Your P-A-G dealer can tell you

more about a

do-more

HYBRID TEAM for your farm

From throughout the county we are hearing new reports of P-A-G's do-more performance. We are ready to tell you all about them. Chances are we can even tell you how P-A-G hybrids are doing for farmers you know. And we'll be glad to explain how P-A-G can break corn-growing bottlenecks on your farm. From P-A-G's big family, we can help you select the varieties best suited to your farm and then show you how they can be tailored into a hybrid team that will solve your corn-growing problems and boost your total income from corn. See us soon! Be sure to ask about P-A-G's spectacular SX hybrids, too.

Protect Machinery

Farmers and farm machinery owners who don't have enough storage space under roof can still protect their machinery from bad weather, says Burton S. Hoine, Penn State extension agricultural engineer. Tillage equipment, such as plows, disks, harrows and cultivators can be stored out of doors after they are cleaned and painted. Metal parts that work in soil should be coated with a rust preventive. Then cover them with plastic sheeting which provides satisfactory storage until they can be placed under roof.

The ears of the cricket are in his legs and a snake hears through his tongue.

Be sure to water evergreens fall and winter. Much winter injury is due to insufficient water in the fall and winter.
