

Four Countians On Cover Of Nat'l Magazine

Three Future Farmers of America and a farmer from the Millersville area appeared on the cover of a national magazine recently.

The FFA members, all 1962 graduates of Penn Manor High School, who appeared on the February-March issue of the National Future Farmer Magazine are James Benedict, Nelson Habecker and Kenneth Sheitzer.

They are shown in the farm shop with John Sangrey, Conestoga R2. Both Sheitzer and Habecker are now farming in partnerships with their fathers on the home farm. Benedict is employed by the Southeastern Pennsylvania Artificial Breeders Cooperative.

Two Cows Have High Record

Two registered Holstein cows owned by H. E. and Maybelle Kettering, Lititz, are prominently mentioned in an official production testing report received from Holstein-Friesian Association of America headquarters at Brattleboro, Vt.

The cows are Reba Hillman Pietje, an eight-year-old, which produced 15,730 pounds of milk and 615 pounds of butterfat in 305 days, and Bankrose Koinv a 12-year old, which had 15,230 pounds of milk and 537 pounds of butterfat in 304 days.

Suicide is the eighth largest cause of death among white males in the U. S.

Don't Learn The Hard Way! Rough Weather and Poultry Troubles Go Hand in Hand. EGG PRODUCERS . . .

The winter has been unusually severe. Production of many flocks has been affected by temperature, disease, or both.

WHAT ABOUT REVACCINATING YOUR LAYERS?

Even if you did give them a booster vaccination between Thanksgiving and Christmas, we feel that in most cases it will be to your advantage to revaccinate your layers and breeders.

NEWCASTLE especially has been unusually severe. Many outbreaks have occurred and it just DOES NOT PAY to take the chance that you'll get by.

WHAT ABOUT THE REACTION?

If you have no reaction you know your birds are immune and you'll sleep better.

If there is a reaction to the mild strains of vaccines we use, your birds were highly susceptible to the field strains and you should be glad you revaccinated before real trouble came along.

SPECIAL ATTENTION

during cold weather HELPS

(in fact you'll be well paid for it)

KEEP ICE OUT OF THE FOUNTAINS, heat tapes are a big help here.

A LITTLE FRESH LITTER in piles in the pens will really make them scratch.

EARLY BIRD HI PRODUCER PELLETS #20. Use them to get that much needed additional feed into them at this time.

There are

LITTLE THINGS in Poultry Management that will help you get

BIG RETURNS from your flocks.

MAY WE HELP YOU?
