

FFA Member Is President Of Student Body

A member of the Grasslands Chapter Future Farmers of America was recently elected president of the student body at Garden Spot High School, New Holland.

Clyde Wissler, New Holland R1, an 11th grade student was recently elected secretary of the local FFA chapter for the second consecutive year. Be-

CLYDE WISSLER

fore that he was local sentinel for two years and has won the County Association's Red Rose Degree.

The son of Mr and Mrs Eugene R. Wissler was class president during his 9th and 10th grades and has been a member of the student council at his school for two years. He is a junior member of the Lancaster County Swine Producers Association and was president of the Junior Ag Club at the school.

Clyde has a farming program built around swine and small grain and helps his father on a 93 acre farm where steers and irrigated potatoes and tobacco are the main enterprises.

Up to this week the Wisslers have transplanted three acres of tobacco into the field beginning almost two weeks ago.

Clyde, who won the chapter's public speaking medal, conducted a school campaign of posters and speeches in assembly to draw twice as many votes from the student body as his nearest rival. He will serve during the 1963-64 school year.

Kirkwood 4-H To Host Parents

The Kirkwood Community 4-H club will hold parents night at their next regular meeting on June 11 at 8 p.m. in the Bart-Colerain school. A speaker on citizenship and character building will be featured.

At the last meeting, members responded to roll call by giving a report on their projects. Dennis Allen gave a demonstration on building a homemade incubator and incubating eggs.

William Maule, Quarryville R1, was elected representative to County 4-H council. Comments were made by leaders, Mrs. Martin Greenleaf, George Reinhart, and Mr. and Mrs. James Martin.

Arnold Lueck, assistant county agent showed slides on soil and water conservation.

Refreshments were served after adjournment by Mrs. Kathryn Wagner, Mrs. Coleen Shoemaker, Mrs. Glenn Myer, and Mrs. Hazel Lowe, members of Farm Women Society 15.

Guernsey Bull Is Classified

PETERBOROUGH, N. H. — The registered Guernsey bull Lake Louise King's Reliable has been named a Gold Star Guernsey Sire by the American Guernsey Cattle Club here.

"Reliable" was bred and last owned by Raymond Goeringer, Lake Louise Farm, Dallas, Pennsylvania.

The Gold Star Sire award is one of three awards included in the AGCC's Gold Star Program designed to recognize superior achievement in the breeding of registered Guernsey dairy cattle. The others are for dams and breeders.

The official summary of Reliable's progeny shows he has 19 daughters with 29 official records averaging 12,143 pounds of milk and 611 pounds fat, 305-2x ME. He also has 24 classified daughters with an average numerical rating of 84.4.

As applicant for the award Raymond and Louise A. Witmer, Willow Street, Pennsylvania will receive a special certificate in recognition of Reliable's superior performance, according to R. D. Stewart, AGCC secretary.

Farm - City Chairman Is Named

This year's Farm-City week chairman for Pennsylvania is Thomas H. Patton, associate

THOMAS H. PATTON

director, Cooperative Extension Service, The Pennsylvania

State University.

Patton said, "The goal of Farm-City Week is to bring about better understanding between rural and urban peoples; to increase the knowledge and appreciation of each for the American way of life; and to recognize that Thanksgiving Day symbolizes an awareness of, and gratefulness for, the bounty of nature and the strength of her man-made institutions."

A former county agricultural agent, Patton has been with the University from the time of his graduation there in 1930. He served as assistant agent in Erie county, 1930 to 1941, and the next two years as county agent in Lackawanna county. He was named assistant director in 1943.

In 1954 when the state extension program was divided into regions for administrative purposes, Patton was given charge of the 16-county Northwest region. A year later he was named to a new position in charge of extension program development and the coordination of all extension work. In 1959, he was appointed associate director.

Martin's Limestone

Calcium and Magnesium are lost to the soil by leaching (a slow leaking away), and by removal of crops (such as hay and other greens). These need to be replaced by the application of limestone.

Complete automatic feeding for DAIRY COWS and CATTLE!

VanDale SILO UNLOADERS

Double augers deliver more silage per minute even when silage is deeply frozen . . . and at a lower operating cost. Patented V-paddle impellers throw . . . not blow . . . silage down chute. Adjustable drive hubs give positive traction in all types of silage. Three-point suspension keeps unloader level at all times.

Plus a complete line of bunk feeders to meet your exact needs

Straight-out Auger Feeder

With VanDale units you can custom build the bunk feeding set-up to fit your needs. Drive section includes hopper, drive assembly and 10' high capacity 8" auger. Additional auger sections are in 10' units and are easily coupled.

Feed-R-Flo Bunk Feeder

The new, all-metal complete feeder. High capacity 8" auger rotates within tube. Gives all-weather protection, even feed distribution, and lower operating cost.

Conveyor-Trough

An important link in automatic feeding. Positioned below silo chute, the VanDale conveyor trough carries the silage to the bunk feeder. Primary section includes hopper, drive assembly, and 10', 8" auger. Additional 10' auger sections may be added.
