

GO WEST, YOUNG MAN, GO WEST. These Manheim Future Farmers have taken the advice and have headed for the West Coast on a six weeks tour in a truck they outfitted in vocational agriculture shop classes. Left to right they are Mark Hoffer, Manheim R3; David Shonk, Manheim R3; John Wagner, Manheim R1; Glenn Metzler, Manheim R1; James Hess, Manheim R1; Robert Kopp, Manheim R2; Marlin Myer, Manheim R3; Clarence Hoffer, Manheim R4, and standing, Paul Hoffer, Manheim R3, chaperonewith the group. Vernon Martin was not present for the picture. L. F. Photo.

Texas today. More later.

Tuesday, July 2

We left for Galveston Bay and arrived there Tuesday morning, stayed till noon, then toured the Texas Imperial Sugar factory in the afternoon.

Wednesday, July 3

We left for San Antonio and arrived at noon where we toured the grounds of the Alamo. We stopped in to visit the Clark Ranch, made Del Rio by evening and drove across the border into Mexico to visit the town of Acuera.

Thursday, July 4

We started for Big Bend National Park, but decided to hit a rodeo in Pecos, Texas instead, to celebrate the "fourth".

Friday, July 5

Drove to New Mexico to see the Carlsbad Caverns. The tour took three and a half hours. We are headed for El Paso.

Southern Co. Holstein 4-H Hold Meeting

Elaine Kreider was elected posture queen contestant by the Southern Lancaster County Holstein 4-H club at a recent meeting in the home of Mr. and Mrs. Paul Wenger, Quarryville R1. Vice president, Jean Kreider, was in charge of the meeting.

A showing demonstration was presented by Earl and Robert Wenger, Dale Shirk, David DeLong, Charles Craig and Mr Charles Tindall

The club voted to take charge of the food stand at the Southeastern Pennsylvania Artificial Breeders show on July 30.

The next meeting of the club will be a combination meeting with the other Lancaster county 4-H dairy clubs. Club members were invited to attend the county Holstein Field Day at the Furry Frey farm on July 25.

Sprinkle lemon juice over the diced apples you will use for salad; this will prevent their turning brown. For color accent do not remove the brightly colored apple skins.

FACTORY WITHOUT MATERIALS?

You've been breeding for high production. Through selection and culling you've improved the bred-in milk-producing capability of your herd tremendously. Now you have cows with a profit-making capacity to produce. Yet returns may still be disappointingly small.

Each of your cows may be like a manufacturing plant equipped with the best facilities but lacking sufficient raw materials. In those circumstances, top-level production is impossible.

If your cows are only partly nourished, they can do only a part-way production job.

Lacking needed amounts of milk-making nutrients, they just can't produce to the limit of their bred-in potential . . . can't produce those extra tons of milk that mean really satisfactory profits.

PIONEER dairy feeding programs are the answer. Feeding the PIONEER way means managing for profit. That's why so many successful dairymen rely on PIONEER. They know that bigger milk profits come from milking, better-producing cows.

Challenge your herd! Find out how good your cows really are. Stop in and talk over your operation with us soon. Remember . . . there's a PIONEER dairy feeding program to fit your needs.
