

ALL THE BRENEMAN FAMILY JOINS in working on club records. Melvin Breneman, third from left, state Future Farmers of America chaplain, keeps up to date on his FFA project record book while brother Larry, second from right, works on 4-H records. Looking on and offering helpful suggestions, left to right are: father, C. Henry Breneman, Ann Louise, Ruth Elaine, and Mrs. Breneman. L. F. Photo.

PIGS DON'T SEEM TO REALIZE they do not belong to Melvin Breneman any more. The litter has been sold, but the buyer has not yet picked them up. Melvin keeps five sows which averaged 10 pigs each at weaning time at the last farrowing. Melvin carries the swine program in conjunction with the dairy operation on the farm. L. F. Photo.

More farmers each month prefer to buy their

crop an additional 40 acres. Most of the cropping program is designed to produce feed for the 65 head of dairy cattle. A total of 55 acres in alfalfa for hay, 50 acres of corn and 15 acres of sudax for

green chop go through the feed troughs each year. Twenty acres of permanent pasture is supplemented by oats, rye and

alfalfa chopped green and fed from wagons.

Much of the responsibility for the milking herd falls to Melvin and Larry. Their father works with his brother, Robert, on custom combining and silo filling. They do about 200 acres of combining and fill about 20 silos each year.

Even though he is busy at home, Melvin finds time for community activities. He has been Guernsey committee chairman at the West Lampeter Community fair for several years. During his last year at high school he was treasurer of the senior chorus, a member of the senior play and on the Yearbook staff. He is now a junior leader in the county 4-H Guernsey club.

He rose to the office of state chaplain from a beginning as local chapter chaplain in 1960-61. He was local sentinel the following year and participated on a parliamentary procedure team that got as far as the state finals.

Melvin received the Keystone Farmer degree in 1962 and won a gold medal in the state project book contest. He won the Guernsey calf presented by the county breeders association in 1961.

Melvin plans to continue farming with his parents for the present, but has hopes that he may sometime be able to continue his education.

"I am looking forward to this year, and the training state FFA officers get," Melvin said.

FOR GROWING SHOATS AT LOWER COST

Feed Wayne PIG BALANCER

Synco-Zymic formulation properly balances farm grains for fast, low-cost growth from 50 to 100 lbs. Arsanilic acid-antibiotic complex improved again for even faster gains on less feed!

Hygromycin for Worm Prevention Optional!
