

Donegal FFA Members On Six Week Tour

By: Mrs. Robert G. Brubaker
Seven boys who graduated from Donegal Union High School this year and are members of the Witness Oak Chapter of Future Farmers of America, are taking a six week tour of western U.S. They left Mount Joy on July 8.

The boys are Reinhold Berg, Jay Bixler, Larry Brubaker, Carl Ginder, Walter Mowrer, Glenn Musser, Donald Ney, and Harry Smith as chaperon.

They toured a seed corn plant in Indiana, a feed research farm in Missouri, Echo Ranch in Kansas which consists of 4,000 acres, Carlsbad Caverns in New Mexico, visited across the border in Mexico, Grand Canyons in Arizona, and arrived in California on July 20. They visited Disneyland and expect to spend about a week in California before touring Washington State.

"Inspection plus Correction equals Protection" is the theme of this year's National Farm Safety Week. Find the hazard, get rid of it, and it can't lead out an accident.

Business Man
MR. DAIRYMAN:

BUILD YOUR MANAGEMENT-FOR-PROFIT PROGRAM AROUND PIONEER FEEDS...

You operate — like every other dairyman — with a number of fixed costs. Whether your herd-average is high or low, your investment in land, buildings, equipment and stock, and your costs for replacements, light, power, insurance, taxes and labor remain the same.

So the way to manage for profit is to improve the performance of each cow.

Chances are, you've been upgrading your herd by improved breeding and culling. But your big profit opportunity lies in a feeding program that will help you milk out your cows to the very limit of their bred-in capabilities.

Today's cows are capable of high-level production — often as much as 2,000 lbs. more milk per cow per year than they're producing. PIONEER feeds and feeding programs can help you get those extra tons of milk from your cows. Challenge your herd. Feed the PIONEER way . . . find out how good your herd really is.

Stop in and see us. We'll help you develop an all-around management-for-profit program that will put profit dollars in your pocket.
