Sons, Canton, Pa — Second Vice-President, Milton Godshalk, Flory Milling Co. Bangor — Third Vice-President; John L Zug, John L Zug & Son, Inc, Richland, Pa. — Treasurer

The following in addition to Hess, were elected Directors for a three year term George W. Robinson, Kreamer Feed Store, Kreamer, Pa and William Sprenkle, Spangler & Sprenkle, York, Pa

A locust devours its own weight in food every day and when an army of locusts, which may weigh as much as 50,000 tons, descends on crops, they consume the food of 5 million people every day.

To Cull Poor Cows

Many first calf dairy heifers are freshening during the late summer and fall months. This is a good chance to cull out

Steer Feeders — PROBLEMS ASSOCIATED WITH CATTLE GOING ON FEED

Digestive disorders and a slight transient depression in appetite in newly-arrived cattle in the feedlot have been problems for a number of years. There are numerous causes:

1. The sudden change in type of feed, for example, from grass and milk to grain, silage and/or hay and a protein supplement.
2. Too rapid pushing of grain concentrates.
3. Too much protein.
4. Not enough roughage.
5. Too much high quality roughage.
6. Unpalatable feed.
7. Too much green chopped legume or grass silage.
8. Feeding soft or immature corn. If not moldy, soft corn is satisfactory, but animals must be accustomed to it gradually (Morrison).
9. Too much green chopped corn causing green corn poisoning.
10. Too much silage fed to lighter weight calves. Calves do not have the digestive capacity to obtain their total digestible nutrients from a full feed of silage alone.
11. Digestive disorders caused by infections.
12. In addition, in connection with supplements containing an antibiotic, there is an adjustment of the rumen microflora to the antibiotic. This may cause a slight depression in rumen function and reduce appetite for 24 to 36 hours after the initial feeding. Softer feces also may be noticed. This effect is transient and after 36 to 48 hours the appetite should be restored to normal.

For a successful and profitable steer feeding program designed to minimize these problems contact any Miller & Bushong Service Representative or call us direct at Lancaster, 392-2145.

Clarence Keener Has Top Cow In D.H.I.A.

A registered Holstein cow in the herd of Clarence Keener, Manheim R3, finished her 305 day lactation in July with 16,602 pounds of milk and 945 pounds of butterfat for the highest lactation in the Red Rose Dairy Herd Improvement Association

The high monthly average during the month was made by the 27 registered Holsteins in the herd at the Red Rose Research Farm. The herd averaged 1,701 pounds of milk with a 37 per cent test and 63 pounds of butterfat per cow.

Second high average was made by the 21 registered Holstein cows owned by John E Esh, Gordonville R1. The herd had 60 pounds of butterfat in 1,574 pounds of milk with a 38 per cent test.

Second high lactation was produced by a registered Holstein cow in the herd of Hiram S Aungst, Elizabethtown R1. She made 20,066 pounds of milk and 876 pounds of butterfat.

Three other cows in the association had more than 800 pounds of butterfat during the lactation ending in July. They were in the herds of Christ K. Lapp and Son, C Robert Greider, and Mark P. Stoltzfus.

County A.S.C.

(Continued from Page 1)

In 1956 He was first elected to chairmanship in September of 1962 after serving as interim chairman in 1961-62 following the death of Landis Becker.

Other officers reelected were Elmer Huber, Pequea R1, vice chairman, and John J Herr, Mount Joy R1, regular member.

Frank W Aument, Holtwood R1, was elected first alternate member, succeeding Russell Drumm, Denver R2. Aument was a second alternate member last year.

The second alternate member went to J Wade Groff, Holstein breeder from Lancaster R7.

Community committeemen were elected last week by mail balloting.

Seldomridge, who was elected community committeeman from Salisbury and Leacock Twps last week, resigned his chairmanship following his reelection to the county committee Thursday night. He was succeeded by Robert Mast, Narvon R2.

Both Aument and Groff are also committeemen in their respective townships.

County committeemen take office on Oct 1.

Rhode Island was the only state that refused to participate in the constitutional convention of 1787.
