

**Have You Heard?**  
 (Continued from Page 7)  
 Have the making for any special dessert if the fruit cake left over the holidays. Just crum- cake and moisten it with orange or pine- ice. Layer with slight-

ly sweetened and flavored whipped cream or softened ice cream in small dessert or sherbet dishes. Top with more whipped cream and a sprinkling of chopped nuts just before serving.

**Some Ways To Serve Creamed**

**Turkey Or Chicken**

When you're making cream- ed turkey or chicken, you have a choice of ways to serve it. Here are several:

As topping for waffles, crisp buttered toast, heated chow mein noodles,

rice or plain noodles.

Serve in patty shells, noodle nests, toasted bread cups, or mashed potato nests.

Use as a filling for stuffed baked potatoes.

Serve between halves of biscuits or cornbread squares as shortcake.

No man is free who is not master of himself.

# Your Alcoa neighbor helps you make the switch in a snap

**T**he threaded fasteners that make screens and windows interchangeable on storm doors . . . the roofing nails that can't rust . . . the common nails, used with your aluminum siding . . . all these precise little parts are made by Alcoa to work for you every day in dozens of different ways. Thousands of small-but-mighty products leave Alcoa/Lancaster each day and go on to every

corner of the world. Some other products include solid and tubular rivets used in the construction of aircraft, boats and truck bodies. Electric cable accessories. And on and on the list goes. They're all important parts, used in almost every product you can name. They're all made right here in Lancaster, primarily from aluminum wire, rod and bar. And they are made to the customer's order as well as stock.

This year, Alcoa/Lancaster marks the tenth year of serving customers all over the world—with products made by your neighbors, in Lancaster.
