**Get a few more eggs may make a lot more profit!**

Stop to figure out how much more "take home" you can earn with your flock with just a few extra eggs per hen?  
 Using hens research-backed Purina laying rations as your hens lay all the eggs their inheritance permits. And, in this day of lower profit margins, those EXTRA eggs that often make the difference between a handsome return for your labor... disappointing profit.

Come in and let us show you how feeding your layers the Purina Way may help you get more eggs... and more profit from your egg-producing operation.

**Same Uniform Feedmaking Plus 13 New Features**

This is a good time for a Mix-All demonstration! There are 13 new features to show you. Come on in. You'll see the new auger feeder drive that loads ingredients at hundreds of speeds. See the high-speed unloading transmission that empties 2-tons of feed in 5 minutes. Then, there's the new concentrate hopper at the rear, the calibrated tank, and 9 other new and useful features.

**GRINDS, MIXES, DELIVERS RATIONS**  
 ONE THING GEHL HASN'T CHANGED, though. The Mix-All still grinds and mixes with uniform precision. In the mill, 66 thin, reversible steel hammers cut (not pound) ingredients on a big 507 sq. in. grinding surface. The ration is thoroughly mixed in the 2-ton hopper.  
 We'd like to prove all this with a demonstration. Why not ask us?
