**NATIONAL FOREST VISITS**  
Recreation visits to National Forests totaled 125 million during 1963. This was an increase of 12 million over the previous year, according to a U. S. Department of Agriculture report. Indications are that this year's figure could exceed that of 1963.

## TWIN RAKE FEEDING

WITH

### "ELBOW FORK" ACTION

**MAKES THE BEST BALES YET**

**303 BALE-CHIEF**

Twin Rakes on the new Allis-Chalmers 303 Bale-Chief make bales solid, square—tied tight. The kind an ejector can throw. Bales resist buckling because "Elbow Fork" action takes out windrow wads that can make other bales pop their twine. Takes heavy windrows into the chamber in clean, sweeping action. Forks retract completely up and out of hay each back stroke. No drag or auger-churning to shred leaves. Big capacity. Come see this new 303 Bale-Chief now.
