

## Sheep and Wool Field Day Is Scheduled

The annual Sheep and Wool field day will be held Saturday, May 23 at the Pennsylvania State University. A feature of the program will be the crowning of the new Penna. Wool Queen, with Secre-

tary of Agriculture, Lee Bull, doing the honors.

A sheep shearing contest for 4-H club members will be featured, along with a tour of sheep pastures, lamb grading, carcass evaluation and meat cutting demonstration.

Registration is set for 9 a.m. in the Meats Laboratory on the Campus. A lamb luncheon will be provided by the Penna. Sheep and Wool Growers Ass'n.

## Lititz-Manheim 4-H Organizes

The opening meeting of the Lititz-Manheim 4-H sewing club was held recently at the home of the local leader, Mrs. David E. Buckwalter, Lititz R3.

The officers elected were as follows: president, Judy Buckwalter; vice president, Reba Shelly; secretary-treasurer, Judy Rohrer; song leader, Doris Jean Keller; game leaders, Beverly Rohrer and Gloria Diefenderfer; news reporter, Margaret Grube; and county council representative, Mary Alice Graybill.

There were 20 members present. The leaders are Mrs. David Buckwalter, Mrs. Rodge Ledyard and Mrs. Russell Rohrer. Mrs. Buckwalter gave instructions on choosing the right pattern and material.

The next meeting will be held May 22 at 7:30 at the home of Mrs. David E. Buckwalter.

Muffin tins can be used to bake apples and green peppers.

## Fulton Grange Present Degrees

Fulton Grange met Monday evening May 11 at the Grange Hall, Oakryn. First and second degrees were conferred on the class of new members.

The charter was draped in memory of Mrs. Clara M. King of Strasburg who was a member of the Grange for 57 years.

Plans were made to attend the Lancaster Pomona Grange visitation meeting May 19 at 8 p.m. in the Kirkwood IOOF as guests of Colerain Grange.

On May 21 and 23 Fulton Grange will present a variety show, "Hobo's Highway," at the Grange Hall, Oakryn, public invited.

At the next meeting, May 25,

the third and fourth degrees will be conferred.

## Random Sample Chicks Hatched

HARRISBURG — A total of 9,141 chicks, representing 32 entries from 13 states, have been hatched in the 1964-65 'Chicken Random Sample Test of the Pennsylvania Department of Agriculture.

Of the 11,976 eggs set early in April, 82.6 per cent hatched—the best hatchability record in the eight-year history of the test, according to E. J. Lawless, chief of the department's Poultry and Egg Division. The previous high was 82.3 per cent in the 1961-62 test.

## CURE-RIGHT HAYING... *fast*

Haymaking has now become fast, easy and smooth the Allis-Chalmers way—with equipment for producing top quality on every farm, in every type of hay. For example, cracking lightly, just enough to break the wax coating on the hay stems, is the secret of Allis-Chalmers hay conditioning. Hay plants come through limp, but complete—not chopped or mangled.

Note below the new Allis-Chalmers Hay Conditioner Hitch. This is the "wishbone" that trails a conditioner so surely and easily any need for a second tractor and operator is eliminated. Ideal for use with all 80-Series mowers, all styles, including trail-type.

LISTEN—no-chatter, pitmanless mowing is quiet . . . with smooth, non-stop rotary action. New Allis-Chalmers mowers for 1961 provide one-piece, reinforced cutter bar design . . . heavy crop durability in the TWIN-WHEEL drive mechanism. New outer shoe loop divider speeds mowing of rank or tangled growth.

SEE Cure-right Conditioning—note how the combination of rubber and steel rolls makes the difference, leaving stems soft and limp. Wax coating is cracked to allow 50 percent faster curing. Just enough action to release stem moisture without making the crop into "silage." Leaves are cured naturally, stay on the stem.

TWIN-WHEEL is an Allis-Chalmers trademark.

Choice of three 80-Series mowers available—side-mounted, rear-mounted, or trail-type. Three models of Allis-Chalmers rakes—parallel bar 77, rear-mounted or ground drive; also No. 7 Pull-Type Side Delivery Rake and Tedder.

Ask us about the Allis-Chalmers plan to finance your time purchase of farm equipment.

## Complete automatic feeding for DAIRY COWS and CATTLE!

**VanDale**  
SILO UNLOADERS

Double augers deliver more silage per minute even when silage is deeply frozen . . . and at a lower operating cost. Patented V-paddle impellers throw . . . not blow . . . silage down chute. Adjustable drive hubs give positive traction in all types of silage.

Three-point suspension keeps unloader level at all times.

Plus a complete line of bunk feeders to meet your exact needs

### Straight-out Auger Feeder

With VanDale units you can custom build the bunk feeding set-up to fit your needs. Drive section includes hopper, drive assembly and 10', high capacity 9" auger. Additional auger sections are in 10' units and are easily coupled.

### Feed-R-Flo Bunk Feeder

The new, all-metal complete feeder. High capacity 9" auger rotates within tube. Gives all-weather protection, even feed distribution, and lower operating cost.

### Conveyor Trough

An important link in automatic feeding. Positioned below silo chute, the VanDale conveyor trough carries the silage to the bunk feeder. Primary section includes hopper, drive assembly, and 10', 9" auger. Additional 18' auger sections may be added.

See us for modern automatic feeding equipment
