P. B. GUERNSEY DISPERSAL
 At the Ass'n. Sales Pavilion, 6 mi. E. of Lancaster, Pa., on Rt. 30.
MONDAY — MAY 18TH 12:30 NOON!
32 COWS — 14 BRED & 16 OPEN HEIFERS
 This outstanding herd owned by a Conn. breeder is brought to Lancaster for a dispersal, offering the best opportunity in years to get high producers.
 The HIR record last year on 33 Cows: 12228M - 605F - 305 days, is the ninth highest in the United States.
 Along with it, good type, attractive udders well attached. Let us try to get some of these cows into Penna. herds. They will help your's and the State's average.
SALE MANAGED BY:

How balanced amino acids help you balance the books... at a profit!

All producers naturally want to get greater returns on their investments. With Pioneer dairy feeds, that's exactly what happens. You get hidden extras when you're feeding Pioneer, because Pioneer makes the feeds with balanced amino acids for better protein building. Here's how they work: Amino acids are the basic building blocks of proteins. When they're balanced, you get top production and top profits. That's because you'll be challenging your cows to produce up to their bred-in ability. But in addition to production and profits, Pioneer gives you more than 90 years of experience in the feed business. That experience goes into an extra "plus" for you: service and ideas, to help you develop the best feeding program for your herd. Call or stop in soon. We'll show you how you can balance the books . . . at big profits.
