

● **Tobacco**

(Continued from Page 1)

Deducting total expenses of 6 cents a pound, members will receive 8 3/4 cents a pound over the 19-cent advance, or a net average of 27 3/4 cents for every pound of C2 grade consigned.

The second and lower grade of 1962 wrapper leaf (C3) commanded an average of 31 1/2

cents a pound from its resale.

Again subtracting total expenses of 6 cents a pound, Farm Bureau members will receive 7 1/2 cents a pound over the 18-cent advance, or an average of 26 1/2 cents for C3 grade leaf.

Farm Bureau broke down expenses: 1.9 cents cooperative expenses, 3.1 cents for shrink

A horse with boots . . .

Farmers know that animals must have dry feet. MARTIN'S BARN-DRI dries damp and wet floors immediately.

MARTIN'S BARN-DRI also helps prevent costly animal loss by reducing slipping when floors are wet.

Use MARTIN'S BARN-DRI for all animals — cattle, hogs, horses, chickens, pets, others. Scatter by hand or shovel. Buy by the bag or ten.

**TWIN RAKE
FEEDING
WITH
"ELBOW FORK" ACTION**

**MAKES THE BEST BALES YET
303 BALE-CHIEF**

Twin Rakes on the new Allis-Chalmers 303 Bale-Chief make bales solid, square—tied tight. The kind an ejector can throw. Bales resist buckling because "Elbow Fork" action takes out windrow wads that can make other bales pop their twine. Takes heavy windrows into the chamber in clean, sweeping action. Forks retract completely up and out of hay each back stroke. No drag or auger-churning to shred leaves. Big capacity. Come see this new 303 Bale-Chief now.

and 1-cent retained by the organization as capital (grower equity).

The final average price to members compared with an open market top of 28 cents a pound paid during the 1962-crop marketing season over a year ago.

Average price of the 1962 open market crop was 23 1/2 cents a pound.

Final settlement price on 1962 wrappers carried out Farm Bureau's promise to member growers that it would return "at least seven cents a pound" (farm-sales-weight) over wrapper grade advances forwarded to growers when the crop was received.

In a letter accompanying grower payments, Hess noted the price was evidence what farmers can do by working together to improve their position in the marketing field.

He pointed out that prices received for wrapper were generally higher than the bulk of individual sales by farmers to dealers and manufacturers.

The letter said the cooperative effort and subsequent operations "shows the value of collective representation in the market place."

By having large volumes of tobacco assembled in warehouses, Hess said, tobacco has the advantage of bulk sweating which enhances its value in the marketplace.

The 1963-crop filler and pull-off grades have been resold, with pool resale checks mailed

to growers last month.

That leaves only 1963-crop wrapper to be sold by the co-operative, Hess said.

The co-op, an affiliate of the Pennsylvania Farm Bureau Co-operative Assn., Harrisburg, is currently enrolling members for the 1964 crop program. It has a membership of 325 growers. Over a million pounds of 1963 crop has been consigned.

One of the most difficult problems, Hess said this week, is to get farmers to realize that the Farm Bureau is themselves. Historically, we tend to use this type of organization in times of stress and forget it when times are good.

"We feel that the grading program should encourage farmers to produce a higher quality tobacco," he added.

CHEESE FOOD

Cheese food is a product made from a mixture of one or more varieties of cheese with added milk solids, salt, and up to three per cent of an emulsifier. These ingredients are pulverized and mixed with the aid of heat. The moisture content of a pasteurized cheese food is somewhat higher than that permitted for process cheese and the milk fat content is lower.

Wipe up immediately any water, grease or food which spill on the floor. University home management specialists remind that falls are likely to occur on a wet or greasy floor.

**Manor 4-H Club
Sees Safety Film**

Captain Theodore Schwalm, of the Lancaster City Fire Department, spoke on fire safety at Tuesday night's meeting of the Penn Manor 4-H Club at Ann Letort School. A film, "Before They Happen," was shown.

Junior leaders named were: Nancy Neff, Linda Fair, Anetta Rorabaugh, Judy Warfel, Charles Warfel, Richard Warfel and Gary Porter.

Delegates to the State Club Congress will be Linda Fair and Gary Porter.

Named to prepare a program for the June 23 meeting were: Nancy Neff, Connie Stehman, Betty Barley, and Jean Breneisen, adult leader.

Attend Church on Sunday.
