

## Senate Passes Meat Import Quotas Bill

The Senate passed a bill—strongly opposed by the Johnson administration — to put quotas on imports of beef, veal and mutton. State Finance Committee, would set quotas on beef, veal and lamb products based on average imports for the 1959-63 period

The vote was 72-15

The measure goes back to the House where administration forces hope it can be killed. The livestock industry has mounted a big campaign in its behalf, however.

The Senate accepted a quota plan worked out in its finance committee, which would have the effect of reducing the meat imports about 30 per cent as compared with 1963 levels.

The measure backers said that foreign meat had taken 11 per cent of the U.S. market by last year and that this was the major factor in a sharp drop in domestic livestock prices.

Critics of the bill argued that it would mean price increases for consumers and would undermine the U.S. position at the trade expansion talks now under way in Geneva.

The bill, as approved by the

### Area Dairy Cows Achieve Records

An official production testing report from The Holstein-Friesian Association of America at Brattleboro, Vt., includes the recently completed lactations of these area Registered Holstein cows.

Hess Maples Posch Mabel, a five-year-old, produced 18,520 pounds milk and 707 pounds butterfat in 305 days. Hess Maples Ty Vic Gladys, a five-year-old, had 16,240 pounds milk and 627 pounds butterfat in 305 days. Both are owned by Paul B. Hess, Lititz.

Princess Pabst Roburke Kay, an eight-year-old, produced 22,145 pounds milk and 679 pounds butterfat in 322 days. Rollingstead Leader Evelyn, a five-year-old, had 20,335 pounds milk and 612 pounds butterfat in 333 days. Both are owned by Titus M. Huist, Lititz.

## How Is Your Corn's Health?

### Is Your Corn Getting A Proper Diet?

These questions can be answered for you on Thurs., August 6 at P. L. Rohrer & Bro., Smoketown.

From 1:30 to 4:30 and 6:30 to 8:30 P.M.

#### Farmers: Here's What You Do!

1. Cut a typical stalk of corn from the area you want tested.
2. Bring the entire stalk (with leaves attached) to us.
3. Max Maichele, Ortho Agronomist, will make an on the spot test for nitrogen, phosphorus and potassium in the corn tissue.

This test will show how well your fertilizer program is meeting the crop needs.

Fertilizer handling equipment will be on display.

Refreshments.
