 Reporter for Lancaster Farm-
 Everett's qualifications for
 his job are many. After grad-
 uating from Paradise High
 school, he completed a course
 in journalism. He has worked
 as a free lance writer for
 state and national farm mag-
 azines, and for several religi-
 ous publications, and he has
 been farming for seven years.
 In addition to his activities

with the Holstein Association,
 he has served as a member
 of the District Council for
 Eastern States Farmers Ex-
 change, and as a member of
 the nominating committee for
 Southeastern Pennsylvania Ar-
 tificial Breeders Cooperative.

Double National Corn Picking Championship for Allis-Chalmers

[This is the first double national championship
ever won in the same year with one
manufacturer's corn picker and combine.]

**2-ROW CORN PICKER,
MODEL 170**

Arlyn Zee, Albany, Wisconsin, farmer piloted
 his Allis-Chalmers 170 corn picker to national
 fame this year, setting a new world's record.
 He won over the nation's six top 1963 state
 champions and unseated last year's national
 champion under some of the driest, brittle
 picking conditions seen in a national meet.

His picker's new dual rotary feeders and
 corn-saving capacity really paid off.

Zee's expert ability topped all others with
 97 701 out of 100, two-hundredths of a point
 better than his winning run in the Wisconsin
 state contest.

**2-ROW COMBINE, GLEANER,
MODEL A . . . AGAIN**

Lawrence Fisher, Palmyra, Michigan, set
 two new records in the National Corn Pick-
 ing Contest. He is the only combine champion
 ever to retain the title two years running.

And he broke his own world corn combine
 efficiency record set last year with the same
 great GLEANER "A." His new record is 98.034.

The GLEANER is really a farmer's kind of
 combine, with its down-front cylinder and
 controlled threshing action. The machine is
 simple to adjust and easy to operate.
