She'll Be A Banker When She Grows Up

Most calves simply grow up to be cows. Some grow up to be a sure source of steady, extra income as well. It all depends upon how you feed them. The Pioneer Feeding Program can make the profitable difference. The capacity to handle maximum feed and produce more milk is determined early in your cows' lives, during the calf and heifer stage. Thus, a fruitful feeding program must be designed to meet all the nutritional requirements of growing cattle and to insure efficient production when they join the milking herd.

Dairymen who employ the Pioneer Feeding Program find that it is not only reasonable in cost, but sets the stage for realizing the full production potential of the cow. Tomorrow's milking herd is in your calf barn right now, and today is the best time to establish a feeding program that will mean to help you set one up, as we have helped more milk per cow per year. We would like many of your friends and neighbors in this community. Call us or stop in. Your calves, too, can be bankers when they grow up.

... feeds you can bank on

She can bank \$1.00 for you right now!

Save \$1.00 on our Lampeter Fair Special.

Buy 25 lbs. Vig-R-Calf and 100 lbs. Pioneer Calf Starter and save \$1.00.

Stop at our booth at the fair, phone, write or tell our servicemen how many units you will need.
