Ice cream, another form of milk, is a favorite dessert, and also is good between meals when combined with milk as a shake or soda.

Time-Saving Ideas When Preparing Biscuits

Although biscuits are traditionally round, you can cut them into other shapes and save time. After rolling out the dough use a sharp knife to cut dough into squares or diamonds. There's no waste because you use every bit of the dough. It's a good trick to remember when you're in a hurry—is faster than using a cutter.

Drop biscuits — from a slightly softer dough than rolled dough — are easy. Drop the softer dough on greased baking sheet and bake 10 to 12 minutes at 450 degrees. Drop biscuits have crisper crusts than do kneaded and rolled biscuits.

FARM WOMEN SOCIETY #3

At their regular monthly meeting in the Social Hall of the Salem Lutheran Church, Lincoln, Group #3 entertained 36 members of Group #6 at a luncheon.

Mr. Wm. Myer, Myerstown, Pa., gave a travelogue of a recent trip to Europe. It covered Russia, Poland, The Berlin Wall, and Switzerland.

Officers were elected for 1965. They were: President, Mrs. Harry Usner, Vice-pres., Mrs. Wm. Eberly, Sec., Mrs. Harry Palm, Ass't Sec., Mrs. Raymond Rahl; Treas., Mrs. Harry Gehman.

Society members will fold Christmas Seals on Nov. 24, 2-4 p.m. at the Health Center.

Plans were discussed for the Annual Party at the Harrisburg State Hospital to be held November 19.

The Society presented gifts to outstanding 4-H Club leaders for their work with the girls of their respective com-

munities. These leaders were: Mrs. Ivan Eberly, Mrs. Harold Stuber, Mrs. Harold Fry.

The next meeting will be held Nov. 21 at the home of Mrs. Harry Usner at Mt. Airy.

AUNGST COMPLETES OUTSTANDING HERD AVERAGE

A new herd production average of milk and butterfat has been announced for the Registered Holstein herd owned by Hiram S. Aungst, Elizabethtown.

As reported by the Holstein-Friesian Association of America, the herd has completed its latest testing year with a per-cow average of 16,049 lbs. of milk and 623 lbs. of butterfat,

based on 26 completed lactation records.

This performance level compares favorably to the average U.S. cow's annual output of 7,500 lbs. of milk and 275 lbs. of butterfat. Herd production averages are calculated on the commonly employed, two milkings per day, 303-day, mature equivalent basis to provide a comparison standard for selection in Registered Holstein breeding programs.

If you really care about America . . .
vote for **Barry Goldwater**

Do you care about the decline in morality and decency in America?

Wouldn't you rather have a government with integrity and without scandals? Wouldn't you rather have a President who would set an example of honesty and courage, rather than one who constantly panders to the special interests of special groups?

Do you care about the decline of American honor and prestige around the world . . . a decline that could lead to war?

Wouldn't you rather have an America so strong and so firmly allied with other nations of the free world that International Communism would not dare to challenge us?

Do you care about a federal government that's getting so big it threatens personal freedom?

Wouldn't you rather have a government that respects personal and local liberty — one that's responsive to you and not to big city politicians and pressure groups? Wouldn't you rather have a government headed by a man who puts principle ahead of politics — honesty ahead of expediency — and conviction ahead of compromise?

Do you care? Of course you do . . . You're an American!
