

Farm Women Give Party At Moravian Home

The Society of Farm Women No. 1 entertained the members and guests at the Moravian Home on Saturday afternoon. Mrs. Abram Bollinger, the president, was in charge of the meeting, and Miss Elizabeth Gibbel led the devotions. Roll call was answered by giving a line of a favorite Christmas Carol. Eighty-five persons attended.

Mrs. Clayton Sangrey, Mrs. Roy Brubaker, and Mrs. Amos Sherk were named as delegates to the State Convention to be held at Harrisburg on January 11 and 12. Several members will fold seals at Heart Haven, Lancaster, on January 4.

Mrs. Arthur Bartholomew of Lancaster was the guest speaker. She was introduced by Mrs. Leon Ulrich, program chairman. Her subject was "Christmas Hymns and Carols." Other features on the program included vocal solos by Margaret Grube and Kenneth Brubaker; piano solos by Carol Murry and Susie Buckwalter; violin solo by Anne Bomberger; vocal duet by Virginia Brubaker and Wendy Fritz; clarinet solo, Diane Buckwalter; duet by Eva Mur-

ry and Julia Hevener, and a poem by John Newcomer. Dinner was served by the following committee, Mrs. Sherk, chairman, Miss Mildred Shreiner, Mrs. Ben Sheaffer, Mrs. Franklin Weber, Mrs. James Roth and Mrs. John P. Erb.

Dairymen Cautioned On Nitrate In Forage

Precautionary measures should be taken when dairy calves and yearling replacement dairy heifers are fed forages high in nitrate, warns Missouri University extension dairy specialist, Ray Hinders. Hinders says calves and heifers that must be fed a forage high in nitrate can be protected from harmful effects by following these few

precautions:

1—Dilute the high nitrate feeds as much as possible with feeds that have been tested and found safe.

2—Feed a concentrate ration high in energy at normal, or slightly above normal rates. Corn and molasses are examples of high energy feeds.

3—Include in the ration 25,000 to 30,000 International Units of Vitamin A per 1,000 pounds of body weight. (A convenient way to include the correct amount of Vitamin A is through use of a dairy supplement reinforced with this important vitamin.)

4—Feed iodized salt and supply protein in the ration more with oil meals than with urea.

Here's the answer to your
MANURE PROBLEMS

EASY WAY
MANURE DISPOSAL
SYSTEM

Saves Time—Saves Fertility

Just scrape or wash manure, bedding waste and feed into Easy Way holding tank. When you're ready, the powerful agitator and self-priming stopper impeller pump will put the homogenized mixture into Easy Way liquid field spreader. No clean-up mess — no stink.

For complete information on the
EASY WAY DISPOSAL SYSTEM write to:

GRIND · MIX · HAUL · UNLOAD

YOUR FEED with the

BearCat
GRIND-O-MIX
GRINDER MIXER

Here's a Grinder-Mixer designed by specialists in the feed grinder business for over 50 years. The BearCat Grind-O-Mix offers you the largest selection of types and designs of hammermills and roller mills available anywhere. With this machine you can process up to 4 tons of formula feed per hour. Expenses — including labor, fuel and depreciation — are only about \$1.10 per ton. The special tapered-bottom mixer tank and agitator arms insure complete mixing of grain, roughage and additives. (Grind-O-Mix is available without grinder for mounting your present BearCat Grinders).

CHECK THESE SPECIAL FEATURES

- 4 large inspection windows
- Concentrate loading from either side
- Swinging auger unloader
- Governor controlled feeder
- 12-inch commercial type mixing auger
- Rugged, extra-strong frame and axle
