Nassau in the Bahamas, with round-trip tickets for two from New York by Pan Am. Top cook in the Portable Appliance Division wins a household supply of 16 Sunbeam appliances.

The 60 contest prizes at the national level also include color TV, stereo, deluxe electric and gas ranges, and portable appliances. In addition, there will be state prizes in states having preliminary state cook-offs or recipe contest. There will be four special national prizes of Reynolds-Wrap for the best recipes featuring chicken in foil cookery.

Entry blanks for the contest can be obtained this month by sending a self-addressed, stamped envelope to DEPT. NCCC, the Poultry and Egg National Board, 8 South Michigan Avenue, Chicago, Illinois 60603; or from the Delmarva Poultry Industry association, Route 2, Box 47, Georgetown, Delaware.

After January 1, they will be available also from State Cooking Contest committees.

**Pennsylvania Ranks 5th In Apple Crop**

Pennsylvania's 10-million bushel apple crop was the fifth largest in the nation this year, according to the State Crop Reporting Service.

Washington was the leading state with 26 million bushels. New York was second with 22.5 million, followed by Michigan with 18.5 million, and California with 12 million.

duced a total of 89 million bushels, approximately 63 per cent of the entire U.S. crop.

York Imperial continued to be Pennsylvania's most popular apple variety. Total production of York Imperial was estimated at 23 million bushels, almost one-fourth the state's total crop. Stayman and Rome Beauty were the second and third popular choices.

In the nation, Delicious was the most popular.

**She'll Be A Banker When She Grows Up**

Calves simply grow up to be cows. Some grow to be a sure source of steady, expensive milk. It all depends upon how you feed them. The Pioneer Feeding Program can make the profitable difference. It has the capacity to handle maximum feed and produce more milk is determined early in the calf's lives, during the calf and heifer period. Thus, a fruitful feeding program is designed to meet all the nutritional requirements of growing cattle and to insure maximum production when they join the herd.

Dairymen who employ the Pioneer Feeding Program find that it is not only reasonable in cost, but sets the stage for realizing the full production potential of the cow. Tomorrow's milking herd is in your calf barn right now, and today is the best time to establish a feeding program that will mean to help you set one up, as we have helped more milk per cow per year. We would like many of your friends and neighbors in this community. Call us or stop in. Your calves, too, can be bankers when they grow up.

**GEHL MIX-ALL**

**Same Uniform Feedmaking Plus 13 New Features**

This is a good time for a Mix-All demonstration! There are 13 new features to show you. Come on in. You'll see the new auger feeder drive that loads ingredients at hundreds of speeds. See the high-speed unloading transmission that empties 2 tons of feed in 5 minutes. Then, there's the new concentrate hopper at the rear, the calibrated tank, and 9 other new and useful features.

GRINDS, MIXES, DELIVERS RATIONS

ONE THING GEHL HASN'T CHANGED, though. The Mix-All still grinds and mixes with uniform precision. In the mill, 66 thin, reversible steel hammers cut (not pound) ingredients on a big 507 sq. in. grinding surface. The ration is thoroughly mixed in the 2-ton hopper.

We'd like to prove all this with a demonstration. Why not ask us?
