Bollinger & Garber Herds Hit New Levels

Local dairy herds of Registered Holstein cows have established new lactation averages for milk and butterfat production As reported by the Holstein-Friesian Association of America, the official production testing herd averages are:

Elam Bollinger, Manheim, has 17 completed production records averaging 16,658 lbs of milk and 634 lbs of butterfat

Jay C. Garber, Lancaster, has 25 completed production records averaging 14,960 lbs. of milk and 589 lbs. of butterfat.

Now Is The Time

(Continued from Page 4) lbs. of fat in 1964. Herds lower than the average should take a close look at their situation and set goals for themselves Once a goal is set, a dairyman should closely look at feeding, milking, culling, and other management practices for possible improvements

REAL ESTATE

116 acre farm, building are in excellent condition, all conveniences, E.F.M hot water heat, gravity spring water and 3 streams running through the land, never dry Cage house for 2160 chickens can be doubled if desired Priced to sell due to ill health Carl W. Grube, New Ringgold, R D 1, Pa Phone 717-943-2707.
