Is THAT You, Mr. Jones?

Every day we receive phone calls and letters from stockmen asking for our advice. Tom Brown, for example, wants to know when the best time will be to sell his lambs, and Jim Smith has a load of hogs to consign. Will Wednesday be better than Monday? And then there is Charlie Jones. He has a good load of cattle, and he wants to know how the market will be next month.

We feel flattered, of course, that so many people contact us. But then again, there must be a good reason for all this. Maybe it's because we've been at this business for 67 years. Or maybe it's because we have specialists in every department — cows, bulls, stockers and feeders, fat steers and heifers, lambs, hogs, and calves — who have the ability, knowledge and experience to give you honest advice and information.

So, do what Mr. Brown and Mr. Smith and Mr. Jones do. Call or write us anytime. You will be glad you did.

"THE OLD DEPENDABLE" — SECOND TO NONE

why a Wayne Pullet Program is good for your pullets . . . and you too!

Laying house failure can often be traced back to a poor pullet. Good pullets, properly fed and managed, can pay off in the laying house. The Wayne Pullet Program sets the stage for better egg checks this fall by producing pullets with a minimum of fat, at the correct stage of sexual maturity, ready to lay at a high rate. It's easy to follow, too:

Start with Wayne Pullet Starter from 0 to 8 weeks. From 8 to 22 weeks select either 74% Pullet Developer, 17% Universal Grower or 22% Pullet Grower. Stop in soon to discuss the Wayne Program designed for you. Your egg check later will prove you were right with Wayne now.
