

TWO WARWICK FFA MEMBERS IN NATIONAL HONOR SOCIETY

Two members of the Warwick Chapter Future Farmers of America were accepted into the National Honor Society, on Friday, April 30. They are Philip Eihart and Eugene Risser. Both students are seniors and outstanding students in Vocational Agriculture. They will be attending The Pennsylvania State University this fall, studying in the College of Agriculture. They were among 19 new members received into the Society.

READ LABELS

Directions and caution statements on drug labels should be read each time the medication is used; and medicine should never be given or taken in the dark.

NEW CROP DISEASE BOOKLET AVAILABLE

A new 20-page booklet that gives symptoms and full-color illustrations of major fungus diseases of many vegetables, field crops, and fruits and nuts is now available from Rohm & Haas Company, Philadelphia chemicals manufacturer. Among the fungus diseases described are early blight, downy mildew, purple blotch, anthracnose, scab, black rot, brown rot, helminthosporium leaf blight, cercospora leaf spot, and blue mold. To protect a wide variety of crops from these diseases, the booklet recommends fungicidal programs based on Dithane M-22 Special, a specially formulated combination of maneb with zinc sulfate manufactured by Rohm & Haas.

MOTO-MOWER

"Hurricane Action" Self Propelled 21" Rotary

- Cuts clean and even for that velvet smooth look
- 3½ H.P. 4-cycle engine with impulse starter

YOUNG PLANTS NEED H₂O Provide moisture for plant growth. Plants established in the spring should be given plenty of water during drought conditions, reminds Craig S. Oliver, extension or namental horticulturist at The Pennsylvania State University. This means thoroughly watering the plant every 7 to 10 days for a 2 to 3-hour period.

IF YOU PLANT CORN

YOU'LL WANT THIS
Ortho Unipel Starter Fertilizer 13-34-10

- Easy to handle in 50 lb. bags . . .
- Proven performance . . .
- Highest available analysis . . .
- Convenient to store and use . . .
- Most uniform pellet . . .
- Uniform early response . . .
- Higher yields

Also available in bags or bulk
20-10-10, 16-16-16, 10-20-20

Before you plant any Hybrid Seed Corn . . . talk to us about ISOTOX 25 Seed Treater (F)

Good hybrid seed corn is expensive, so it doesn't make sense to plant it without protecting it from insects and soil disease.

That's why we're telling our customers to use ISOTOX 25 Seed Treater (F). You mix it with the seed right in the planter box, and your corn seed goes into the soil with all-round protection. That's because ISOTOX is an insecticide and a fungicide. It works on insects like wireworms, seed corn maggots and seed corn beetles, and keeps off dry rot and damp-off.

ISOTOX is made for hybrids, and it's made so the right amount sticks on every seed. It runs just about 16c an acre to use this seed treater so why take a chance on losing any expensive seed, or having to replant later. See us for ISOTOX Seed Treater (F) now.
