Penna. Farm Prices Stronger In Mid-April

Potato prices continued to climb in Pennsylvania, reaching \$4.90 a hundred-weight last month, the highest on record for any April since the \$5.37 recorded in 1920. The April price was 60 cents above mid-March quotations and \$2.15 higher than a year ago.

Strength on the potato, livestock and egg markets helped boost the cash returns of Commonwealth farmers in mid-April, according to the Pennsylvania Crop Reporting Service.

The average prices received for all Pennsylvania farm products rose 1 percent above those of mid-March and were 6 percent higher than in mid-April last year.

All livestock prices rose during the month, with lambs showing the biggest increase — \$2.40 higher than in March and \$2.00 above a year ago. Calves were \$1.20 higher than in March.

Egg prices rose four cents from mid-March, and the average of 37 cents a dozen was two cents higher than in April 1964.

In the nation, prices received were 2 percent above mid-March and 3 percent higher than a year earlier. Prices paid by farmers, however, rose to a record high in mid-April and were almost 2 percent above a year ago, according to the U. S. Department of Agriculture.

Major crop prices fluctuated slightly, but changes were minor compared to mid-March.

Transplanting Tomatoes and Tobacco?

Come in and see us about

ISOTOX

Transplanter Solution

Your tobacco and tomato plants need special protection from soil insects at transplanting time. That's why we're recommending ISOTOX Transplanter Solution for use now. This is the best protection you can buy.

For as little as 50 cents an acre — and without any additional equipment on your planter, you can keep off wireworms, maggots and other soil insects.

ISOTOX mixes with water in the "setting water tank." It won't settle in the water — so your plants get uniform protection around every tobacco and tomato root and stem.

So, don't take a chance. If you're transplanting, see us for ISOTOX Transplanter Solution.
