 are more people suscep-
 to bee stings than was
 ely supposed.

st of us can suffer bee
 with no serious effects,
 Council says, but some peo-
 become increasingly sensi-
 to them, to the point
 they suffer acute and
 times fatal reactions
 authorities believe that
 of the sudden deaths at-
 ted to heart attacks and
 prostration are actually
 of severe reaction to a
 sting.

Although there are at least
 twenty-five other insects whose
 bites or stings are capable of
 producing allergic reactions in
 man, the honeybee, bumblebee,
 yellow jacket and hornet are
 the most dangerous

Most fatal stings seem to
 occur in adults, and statistics
 show that there are about
 twice as many fatalities in
 men as in women This could
 be due to the fact that men
 are exposed to a bee stinging-
 environment more often than
 women are The Council also
 points out that in some in-
 dividuals the allergy appears
 in childhood and tends to
 grow more severe with each
 sting How long a person re-

Business Man
MR. DAIRYMAN:

HOW MUCH WOULD AN EXTRA TON
 OF MILK PER COW MEAN TO YOU?

Many dairymen who have challenged their herds
 — who have fed for more milk — have found that
 their cows can often produce as much as 2,000
 extra pounds of milk per year when fed the
 PIONEER way.

If you're milking 100 head, an increase of 2,000
 lbs. of milk per cow would mean 200,000 lbs.
 more milk per year for you to sell. At \$4/cwt.,
 the extra milk would bring an extra \$8,000!

Management for profit the PIONEER way can
 mean big additional earnings for you. That's why
 thousands of successful dairymen rely on
 PIONEER feeds and feeding programs to help
 them milk out the total bred-in production capa-
 bility of their cows — to help them get more
 profit from each cow.

Challenge your herd! Find out how good your
 cows really are. Stop in soon and talk over your
 production problems with us. Remember, there's
 a PIONEER feeding program to fit your need.

Chops Crops Just Right

John Deere No. 6 Forage Harvester

John Deere No. 6 Forage Harvester
 chops crops short — for easier storing
 ... better packing ... easier feeding
 ... and peak silo capacity. You get six
 lengths of cut — from 7/16 to 2 inches.
 (A 1/4-inch-cut sprocket is available as

special equipment.) The economical
 No. 6 may be equipped with 5-1/2-foot
 pickup ... 5- or 6-foot mower bar ...
 2-row unit ... heavy-duty or low-cost
 1-row unit. See us now. Check our
 customized Credit-Plan.
