

## 4-H Club News

(Editor's note to all 4-H News Reporters: We have noticed two things recently that we would like to call your attention. One, all 4-H reporters are not sending us reports on their Club's meetings and activities. Perhaps some of you are not aware that we welcome your reports. We try to edit them as little as possible; we use your by-line with each report you send in; and we cooperate with the Extension Service on an award at the end of the year. Secondly, some reports have been coming in later than is necessary, judging by the dates of the meetings reported. For example, a meeting may be held Tuesday or Wednesday night of one week and the report arrives the following week. The first job of a news reporter is to get the news. But, equally as important is getting it to the public promptly. Our deadline for news is Friday morning, but to be sure of getting your report into the paper in the right week please try to get it to us by Thursday morning. If your report is short we will accept it by phone in an emergency. So, if you are not already sending us reports, we invite each of you to do so. If you are not sending them promptly, we urge you to make an effort to do so, and we believe you'll find the effort will be rewarded in satisfaction for a job well done).

### PEQUEA VALLEY CLUB ORGANIZES

by Carol Eby, reporter  
The Pequea Valley 4-H Sewing and Cooking Club organized at a meeting Monday night at the Intercourse Fire Hall.

The following officers and committees were elected: president, Cynthia Brackbill; vice president, Doris Kauffman; secretary, Lucinda Brackbill; treasurer, Janice Baum; news reporter, Carol Eby; song leaders, Phyllis Reinhart and Dianne Myers; game leaders,

Jane Hooper and Karen Smoker. Evelyn Groff was elected as County Council representative.

The club leaders are Mrs. Charles B. Hooper, Mrs. Harold Kauffman, Mrs. Lloyd Groff and Mrs. Robert Myers.

A committee was selected for the health meeting. They are Donna Ghok, Carole Reinhart and Janice Baum.

On June 14 the 1st and 2nd year sewing girls will meet.

The club also met May 17 when Miss Joanne Warner, home economist, spoke to the

ard 27.00-29.50, Utility 24.00-27.00, Cull 18.00-24.00.

Sheep 15: Not enough on any one class to establish a market.

Cows sold very slow to barely steady at the May 26 sale with receipts totaling 175 cows, 12 bulls, and 12 heifers. Fresh Holsteins brought 250-400; Guernseys, 150-265; other Breeds, 150-300. Bulls sold for 140-210, and heifers 65-140

At the May 24 horse sale, 325 head sold steady. Riding horses brought 125-630; driving horses, 125-250; killers, 5-5½ cents per pound — all mules went for killers. Pony mares sold for 30-110, and geldings 25-110.

The wholesale trend at the

May 24 hog sale was steady, and retail sales moved 50 cents higher. The 491 head offered retailed at 23-24; wholesale (U.S. 1-3), 22-23; heavyweights, 21-21.50. There were no shoats sold. Sows brought 15.50-17.50.

At the May 24 calf sale, 130 head were sold averaging \$1-1.50 lower. Choice brought 32-34, Good and Low Choice, 30-32; Standard, 28-30, Common, 22-27.

Sheep 98: Sheep and Lambs generally steady. Choice and Prime 60-100 lb. Spring Slaughter Lambs \$27.00-30.00, Couple head \$32.00-34.00. Few 40-60 lbs 22.50-27.00. Shorn Slaughter Ewes and Bucks \$5.00-11.50

At the hog sale on May 22,

Make certain that there are no nests of yellow jackets, bees or wasps in the area of your house, barn or yard. Destroying a nest is sometimes tricky business. The spraying may be more safely and effectively done after dark. A flashlight may help you to hit your intended target accurately with an effective insect spray.

Bees seem to be angered by dark shades, whereas white or khaki clothing does not bother them.

150 head were offered. Market hogs weighing 160-180 lbs. brought 19.85-21; 180-200, 21.85-24.10; 200-220, 22.35-23.60; 220-240, 22.35-24; 240 and up, 20.60-22.50. Sows sold for 16.85-17.10.

# Mr. Dairyman:

## Are you managing your herd for profit?

Managing for profit must begin with your dry cows and bred heifers.

Management for profit calls for feeding the dry cow and bred heifer to accomplish three things;

Build the unborn calf,

Build the cow's reserve,

Stimulate the cow's milk-producing system so that she may produce to her in-bred ability.

You can not expect last years top performer to repeat only because she has the potential.

She has to be fed for high production — and particularly when she is dry.

No other period in a cow's life has as great an influence on milk production as does the two month period just before she freshens.

Management for profit must also begin with feeding your dry cows PIONEER DRY & FRESH.

On PIONEER DRY & FRESH and the PIONEER Program your dry cows get the nutrients they need, and you can be sure that she will produce according to her capability.

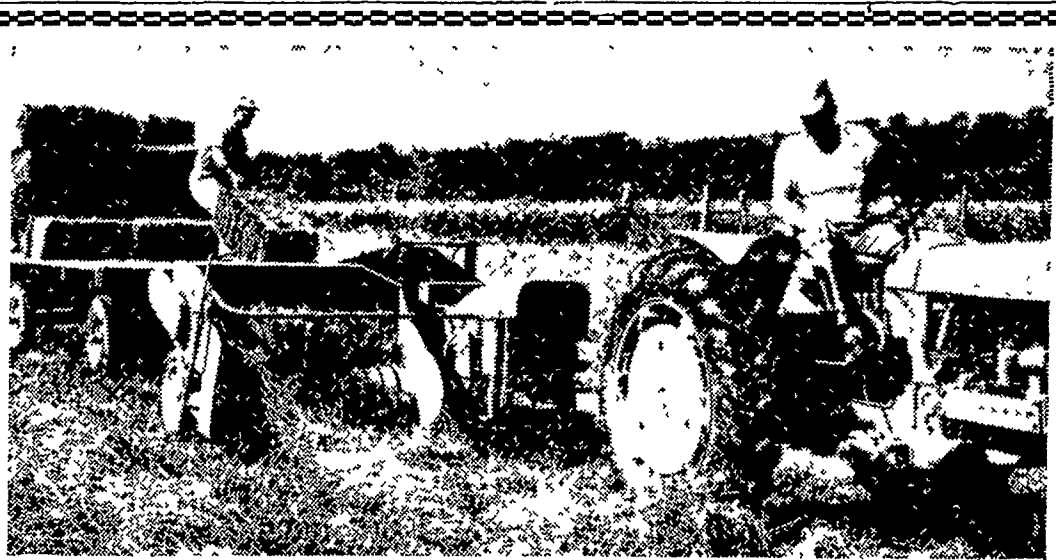

Stop in soon or ask our servicemen about the PIONEER management for profit program, beginning with your dry cows.

There is profit in PIONEER.
