

# Keep Records And You'll Keep DEKALB

Jonas L. Nissley, York Co., Pa., proudly displays his DeKalb Performance Record.

## Actual Records Show PROFIT-POWER Of DeKalb Pullets

Jonas Nissley knows the value of keeping accurate records — also the value of keeping DEKALB Layers.

10,614 DEKALB 131 STARTED PULLETS — 20 weeks old — were housed on March 27, 1964.

These DEKALB birds laid 238.1 eggs per pullet housed on 3.80 pounds of feed per dozen eggs in 365 days. The birds had 1.2 square feet per bird on a part slat

floor. Mortality was less than .7 of one percent per month.

Jonas says: — "The DeKalb pullet has demonstrated its ability to perform well under high density population on our farm in York County, Pa."

Yes — IT PAYS TO KEEP DEKALB!
