**now...from New Idea
all-new Uni-System!**

**four self-propelled harvesting implements
all using the same rugged Power Unit!**

New Idea's **Uni-System** is the modern concept of harvesting machinery—combinations of interchangeable processing units, all carried, powered, and propelled by a single Power Unit. Just one investment in engine, transmission, wheels and tires—converting quickly from one harvesting unit to another, depending upon the crop. Here's how it works.

**where bold new ideas
pay off for
profit-minded farmers**

Start with the Power Unit. Choice of 206 cu. in. or new 244 cu. in. engines—both featuring hydraulically controlled variable ground speeds (3 forward, 1 reverse), control tower visibility, and "easy on - easy off" **Uni-System** interchangeability. Then, select the **Uni-System** harvesting units you need. For small grain and beans, you have the **Combine**—with either an 11-foot or 13-foot grain platform. For shelled corn, you add a **Cornhead**.

Just one **Cornhead** (with all the big capacity features of New Idea's famous Superpicker) to serve as the gathering unit for the **Uni-Picker**, **Uni-Sheller** or **Uni-Combine**.

It's that simple. Only one investment in a **Power Unit**—then, your choice of interchangeable processing units to assemble up to four different self-propelled harvesting machines!

Uni-System combine with big capacity from grain platform to 55 bushel grain bin. Features extra-heavy concave and the strongest cylinder in the business! Does superior job in small grain and beans in all field conditions.

Uni-System combine with cornhead for top performance in "corn country." Greedy Superpicker Cornhead has specially designed snapping rolls, and double auger elevators to carry the ears off fast.

Uni-System picker has giant 12' x 1' husking bed, biggest on the market! Special presser wheels with 212 moving rubber Flexi-Fingers align the ears and keep them moving along the husking rolls. You get cleaner corn.

Uni-System sheller, world's only self-propelled sheller, cage-type, it lets you control the length of time the ears stay in the shelling cage. Delivers cleaner corn, fewer cracked kernels to 60-bu bin.

*New Idea 2333 FINANCE PLAN—Even if you buy the Power Unit and all available Uni-System harvesting units, your down payment is only \$2333 cash or trade. AND, after you've made one seasonal payment, you can buy additional Uni-System machines with no down payment!
