

(Continued from Page 1)

district offered ideas and facts. Henry Hackman, a director, discussed the history of the exploitation of natural resources by civilizations dating

back to biblical times. Garland Gingerich, district secretary, showed figures illustrating the number of acres needed to furnish various food and clothing items on a per person basis: "121 acres to grow meat, leather and wool; .51 acre for dairy products; .14 acre for poultry (feed grains); .06 acre for vegetables; and .04 acre for fruit. Wayne Maresch, county conservationist, suggested exploration of the long range value of locating roads and indus-

tries on land not adapted to agriculture. Other joint meetings between the two agencies are planned to further explore the problems involved, and for the ultimate purpose of developing a sound plan for the future development of Lancaster County.

In their regular business meeting on Monday night at the County Courthouse, the directors reviewed colored slides shown by Wayne Maresch depicting types and structures of soil and illustrating conservation needs and practices. These slides were purchased by the district and will be made available to 4-H, FFA, and other interested groups as one means of circulating conservation information.

Maresch also presented one cooperative agreement for cancellation, and seven new agreements for the directors approval. The new agreements were with: Howard C. Sipling, Marietta R1, 95 acres, Ray C Sipling, Marietta R1, 94 acres, Wilbur N. Erb, East Donegal Township, 105 acres, Fred Johnson, Holtwood R2, 303 acres, J Robert Musser, Lancaster, 86½ acres, Russell Stepanchak, Columbia R1, 101 acres, and David M Zimmerman, Ephrata R2, 77 acres. The cancellation was for 106 acres. All were approved unanimously.

In considering Director Elmer Good's pending retirement at the end of this year, the directors discussed the possibility of securing a new director who might be an urban member of the board. It was suggested this might serve to broaden the base of district thinking.

In reviewing the recent plowing contest-field day events, the consensus was that it had been highly successful, with about 200 people turning out for the combined affair. It was mentioned that

a more central location might draw more contestants and spectators from the southern and eastern sections of the county. This was the first year that the two events had been combined, and several new features were added to the field day this year that may become permanent.

### 4-H Pig Roundup At Stockyards August 17th

The Lancaster County 4-H Pig Club Roundup and Sale will be held at the Union Stock Yards, Lancaster. Pigs entered will arrive at the Yards between 4:30 p.m. on Monday August 16. Judging will begin on Tuesday at 8 a.m.

The judging by breeds in three weight classes is expected to be completed by noon-time. At 1:30 p.m., a public auction sale of all entries by individuals, pairs, and uniform groups, will be held.

The three weight classes in each breed will be lightweight (190 pounds and under), mediumweight (195 pounds to 220 pounds), heavyweight (225 pounds and up).

Club members are eligible to show only one pig in each weight class, but may show in as many weight classes and breeds as he has pigs.

August 9, 1965

A steady tone prevailed at the hog sale as 513 head were sold. Market animals retailed for 26-27; wholesale (US 1-3) 25.25-25.75; heavyweights, 24-25.25. Sows sold for 17-21.75. No shoats were offered.

### CALVES

August 9, 1965

Receipts of 141 sold for an average of \$1 higher this week, although there was an absence of prime animals available. Choice brought 30.50-33.50; Good and Low Choice, 28.50-30.50; Standard 26.50-28.50; Common, 18-26.

## Bigger capacity

John Deere 112 and 115 Chuck Wagons

You'll haul bigger loads . . . unload 'em faster with a John Deere 112 or 115 Chuck Wagon. With side extensions the 112 has 369 cubic feet of capacity . . . the 115 has 465 cubic feet.

These self-unloading wagons unload from the side into bunks . . . from both side and rear into elevators, blowers, trench and bunker silos. Low-cost attachments enable you to haul small grains and spread manure.

Stop in and get all the facts on John Deere 112 and 115 Chuck Wagons.
