VALUABLE REAL ESTATE

SATURDAY, OCT. 16, 1965

10:00 A.M.

The undersigned Executor and Trustee of the Estate of Robert J. Yocum will offer at public sale in front of The First National Bank of Shippensburg, Shippensburg, Penna., the following two adjoining farms located approximately three miles North of Shippensburg.

Farm No. 1 — Farm located along the road from Shippensburg to Mongul and Roxbury near the Village of Mongul in Southampton Township, Franklin County, Penna., containing approximately 157 acres. Having thereon erected a large frame barn with implement shed and corn crib, hog pen, and dwelling house, House with bath, farm in high state of production, Borough of Shippensburg water supply available.

Farm No. 2 — Farm located in Southampton Township, Franklin County, Penna., adjoining above farm, containing approximately 284 acres. Having thereon erected a large stone house, large barn, chicken house, garage, cow barn, hog pen, corn crib, and implement shed. Water supply from large spring, bath in house, farm in high state of production. Contains sizable woodland and pasture land, limestone ground.

The undersigned reserves the right to offer above farms separately and as one unit.

Terms to be announced day of sale, or inquire of undersigned.

The First National Bank of Shippensburg, Pa.

Complete automatic feeding for DAIRY COWS and CATTLE!

VanDale SILO UNLOADERS

Double augers deliver more silage per minute even when silage is deeply frozen . . . and at a lower operating cost. Patented V-paddle impellers throw . . . not blow . . . silage down chute. Adjustable drive hubs give positive traction in all types of silage.

Three-point suspension keeps unloader level at all times.

Plus a complete line of bunk feeders to meet your exact needs

Straight-out Auger Feeder

With VanDale units you can custom build the bunk feeding set-up to fit your needs. Drive section includes hopper, drive assembly and 10' high capacity 8" auger. Additional auger sections are in 10' units and are easily coupled.

Feed-R-Flo Bunk Feeder

The new, all-metal complete feeder. High capacity 8" auger rotates within tube. Gives all-weather protection, even feed distribution, and lower operating cost.

Conveyor Trough

An important link in automatic feeding. Positioned below silo chute, the VanDale conveyor trough carries the silage to the bunk feeder. Primary section includes hopper, drive assembly, and 10', 8" auger. Additional 10' auger sections may be added.

See us for modern automatic feeding equipment
