

Weekly Poultry Report

Eastern Pennsylvania And New Jersey

WEEKLY SUMMARY

LIVE HENS

Prices irregularly 1/2c higher & lower on light type hens. Prices over 8c reflect sales subject to quality & grade deductions. Offerings moderate & adequate for a fair demand. Supplies of heavy type hens adequate for an only fair buying interest. Prices paid at farms: Light type hens 6 1/2-8 1/2, mostly 7 1/2-8c; Heavy type hens 15-16, mostly 15c.

LIVE TURKEYS

Supplies of heavy type clearing fairly well on hens, but ample and occasionally in excess on toms. Demand fair. Prices paid at farms on heavy type hens 23-23 1/2c and toms 21c.

Fogelsville

October 5, 1965

- Its NEW high fat content (10%) — means higher energy and faster growth — smoother, healthier, glossy-looking calves. The high fat is obtained by employing a new high-fat, skimmed milk product.
- New — Vitamin A content (10,000 units) — provides growth promoting benefits so important in early calf life. Milk-Mizer's new vitamin A unit level insures a wide margin of safety.
- New, powerful emulsifier (Propylene Glycol) allows faster dispersion and aids in fat absorption by the calf. Milk-Mizer goes into suspension more quickly and is more digestible because of Propylene Glycol which also enhances coat condition and finish.
- Milk-Mizer has excellent keeping qualities and retains its nutritive value for months.
