

Farm Women No. 1 Reelect Mrs. Sangrey

Mrs. J. Clayton Sangrey was reelected president of Society of Farm Women No. 1 at the meeting held on Saturday afternoon at the home of Mrs. Martin Moore. Other officers reelected included Mrs. Roy Brubaker, vice president; Mrs. Raymond Newcomer, corresponding secretary; Mrs. Amos Shenk, treasurer; Mrs. Brubaker, music director, assisted by Mrs. W. Dean Fyock, Mrs. P. F. Snyder, reporter. Mrs. Graybill Holinger was elected recording secretary.

Mrs. Sangrey was in charge

of the meeting and Mrs. Joseph Russell led the devotions. Mrs. Charles Ackley, a new member, was admitted to the organization. The group will sew today at Lancaster General Hospital.

A contribution was made to the Needlework Guild and six of the members will assist at folding TB seals. Announcement was made of the Heart Haven fall luncheon at Hotel Douglass on Nov. 21, also the County Convention to be held in the Ephrata High School on Nov. 6. Cookies will be given to Child Development Center on Oct. 28.

The following members will visit the County Home on Oc-

tober 21: Mrs. Amos Shenk, Mrs. Franklin Weber, Mrs. B. G. Shaffer and Mrs. Sangrey. Mrs. John Newcomer gave a report on the Symposium for Speech and Hearing problems, held last Saturday in Lancaster.

Mrs. Gerald Lestz was the guest speaker. Her subject was "Antiques Are Meant to Live With." She showed slides of charming old houses furnished with antiques being used at the present time.

Mrs. Landis Myer, the county president, was a guest and Mrs. Fyock was cohostess.

The first news agency for the dissemination of news was established in Boston, Mass. about 1811.

1200 Youths

between 16 and 21 were enrolled in local Neighborhood Youth Comps in 23 States. The boys worked on survey crews, flood damage repairs and recreation projects, and as aides to professional personnel. The girls worked for the conservation districts as clerks and typists.

Four state soil and water conservation commissions sponsored statewide NYC projects and 17 soil and water conservation districts sponsored local projects. In all, 438 conservation districts participated in the program by providing useful work and training experience.

Most of the conservation districts expect to continue expand the work next summer and, where possible, provide part-time work during the school term.

INVENTED TELEPHONE

Daniel Drawbaugh, a Harrisburger, nearly replaced Alexander Graham Bell as inventor of the telephone. He did develop a telephone earlier or at the same time as Bell, but he failed to obtain a patent, which Bell did in 1876. But the dispute was serious enough to be carried to the Supreme Court where Bell's patent priority won out.

"Do you mean we can't have a chimney if we put in electric heat?"

"No, dear. I said we don't need a chimney with electric heat, because it's flameless. You don't need an escape route for smoke or fumes as you do with flame-type heating systems."

"We can have a fireplace, then, with a chimney if we want one?"

"Of course, dear, but more important, we'll have all the benefits of modern electric living . . . it's so clean, comfortable, convenient and space-saving. There are no flames, no soot, no fumes, no odors. Best of all, electric heat is so economical."

Join the better than 10,000 PP&L-served families already enjoying clean, flameless electric home heating. See your builder or your Reddy Kilowatt Recommended Home Heating Dealer (listed in the Yellow Pages).
