Other buyers helping to make the 48-head sale a success were New Holland Sales Stables, Vintage Sales Stables, and the Ezra W. Martin Co. The sale averaged \$28.11 per hundredweight, and the

hog weights averaged 222 pounds.

Auctioneer Clyde H. Wolgemuth conducted the sale which took place at the Fair's hog tent.

**Meat Imports Below Level Demanding Pres. Quota Imposition**

The revised estimate of meat imports into the United

states during 1965 places the total at 630 million pounds, according to Sec. of Agriculture Freeman. This quantity would not require presidential action to invoke meat import quotas during 1964.

Under legislation enacted in August 1964, if yearly imports of certain meats — primarily beef and veal — are estimated to equal or exceed 110 percent of an adjusted base quota, the president is required to invoke a quota on meat imports. The adjusted quota for 1965 is 848.7 million pounds. The level of estimated imports which would trigger its imposition is 110 percent of the adjusted base quota, or 933.6 million pounds.

Secretary Freeman said the estimate of fresh, chilled or frozen cattle meat and meat of goats and sheep, other than lamb, which will be imported is based on detailed trade surveys and other information. He pointed out that the expected volume of meat imports is 110 million pounds below the 1964 level of about 740 million pounds.

Pursuant to the law, the department will make its determination of the adjusted quota base and estimate of meat imports for 1966, and advise the president before Jan. 1, 1966, Freeman said.
