(Continued from Page 14)

your oven-fried chicken—
FRIED EGGPLANT WITH GENTLEMAN'S CHOICE SAUCE

- 1 small eggplant
 - 1 cup cornflake crumbs
 - 2 eggs, slightly beaten
 - 2 tablespoons water
 - 2 tablespoons margarine
- GENTLEMAN'S CHOICE SAUCE**
- 1/2 cup mayonnaise
 - 1 teaspoon lemon juice
 - 1 tablespoon horseradish mustard
 - 1 teaspoon finely chopped onion

Pare eggplant; cut into 1/2 inch slices, cut slices in half. Dip into crumbs, then into eggs mixed with water, then

crumbs. Pantry on both sides in melted margarine until crisp and brown. Serve topped with Sauce. To make sauce, combine all ingredients. Spoon into serving bowl. Serve with Fried Eggplant.

USE RIGHT PESTICIDE

Don't spray or dust a pet unless the pesticide is labeled for such use, advises Herbert Cole, Jr., Penn State agricultural chemicals coordinator. A flea powder may be all right for dogs, but cats will lick it off as they clean themselves. Read the label to find out on which animals the pesticide can be used safely. The label should give directions for applying the pesticide and what precautions to take in using and storing it.

low cost

is the word for Flameless Electric Home Heating

For the Farm Wife and Family

By Doris Thomas, Extension Home Economist

Ladies, Have You Heard? . . .

Worth Knowing Anytime

Take a man's-eye view of dust, especially if he is taller than you are. You may need to use a stepstool and see what he sees around the house. One homemaker, who was much shorter than her husband, did just this and was horrified by the visible dust on top of the refrigerator. Once accustomed to working only as far up as she could see, she now cleans all surfaces as high as she can reach, then climbs on a stepstool to finish the job.

THOMAS

The nutritional contribution of ice cream to everyday meals makes it an important food to include when planning menus. Ice cream furnishes children and adults the same nutrients as milk does but in different amounts.

Grooming Tips For Men's Suits

Extra flavor is assured when most cheese, except cottage cheese, is served at room temperature. It's a good idea to take the amount to be served from the refrigerator thirty minutes to an hour ahead of time.

An occasional airing outdoors will give men's suits a fresh look. If the men in the family wear suits everyday, suggest they rotate the wearing of suits. A day's rest permits wrinkles to hang out and the suit needs pressing less often.

Protect The Family

When a family member comes down with an easy-to-catch disease, home sanitation takes on added significance to protect others in the household. One of the most important precautions is to isolate everything the patient uses from the rest of the family.

Proper hanging is essential to good suit care. Use properly designed, wooden hangers for suits — hangers should be neither too wide nor too narrow for the shoulders. Leave the coat unbuttoned. Hang trousers by the cuffs on hangers to avoid folds. Special pant hangers are ideal.

To prevent disease or cold germs from spreading, launder all sickroom bedding and clothing separately. Adding a liquid chlorine bleach to the wash — as directed on the container — serves as an effective disinfectant. Also wash dishes used in the sickroom separately.

Remind men that stuffing pockets tends to pull the fabric out of shape.

Examine suits periodically for needed repairs; remove stains promptly; send suits to the drycleaner before they become too soiled.

Complete automatic feeding for DAIRY COWS and CATTLE!

VanDale SILO UNLOADERS

Double augers deliver more silage per minute even when silage is deeply frozen . . . and at a lower operating cost. Patented V-paddle impellers throw . . . not blow . . . silage down chute. Adjustable drive hubs give positive traction in all types of silage.

Three-point suspension keeps unloader level at all times.

Plus a complete line of bunk feeders to meet your exact needs

Straight-out Auger Feeder

With VanDale units you can custom build the bunk feeding set-up to fit your needs. Drive section includes hopper, drive assembly and 18' high capacity 9" auger. Additional auger sections are in 18' and are easily coupled.

Feed-R-Flo Bunk Feeder

The new, all-metal complete feeder. High capacity 9" auger rotates within tube. Gives all-weather protection, even feed distribution, and lower operating cost.

Conveyor Trough

An important link in automatic feeding. Positioned below silo chute, the VanDale conveyor trough carries the silage to the bunk feeder. Primary section includes hopper, drive assembly, and 18', 9" auger. Additional 18' auger sections may be added.
