

NEW CORN PLANNER

Work out your new corn plan by filling in blanks below

Present average corn yield? _____ bu.

New yield goal? _____ bu.

Increase expected? _____ bu.

High Capacity Hybrids selected?

G- _____, G- _____, G- _____

Present plant population? _____

Extra plants needed to make increase? _____

(Allow 1,000 to 1,500 per acre for each 10 bushels.)

New plant population? _____

Pounds per acre N P₂O₅ K₂O

Present fertilizer program? _____

Additional fertilizer needed
to feed extra plants? _____

(Allow 20 to 30 pounds of N, 10 to 15 pounds of P₂O₅, and
12 to 20 pounds of K₂O for each 10 bushels increase.)

Total fertilizer required? _____

THINGS THAT MIGHT PAY:

- lime
- drainage
- minimum tillage
- irrigation
- minor elements
- earlier planting
- narrow rows
- pop-up fertilizer
- better weed control
- soil incorporation of weed killers
- better soil insect control
- minimum cultivation
- more corn fed as silage
- high moisture grain storage
- combine-dryer setup.
